About Greg Doucette

Powerlifting Champion...

IFBB PRO...

French Toast Connoisseur...

Coach to thousands of circles...

From his Guinness World Record and Master's degree in Kinesiology, it's hard to believe an episode of 'That's Incredible!', featuring a 13-year-old bodybuilder, kickstarted Coach Greg's passion for the weight room.

Training first began alongside his father, using homemade equipment to start sculpting his dream physique. Greg fell in love with the sport when he could see himself gaining mass and growing stronger. He had officially caught the bodybuilding bug.

Since his humble beginnings, Greg has dominated the world of powerlifting and bodybuilding. Starting as a teenager and continuing well into his forties, he has competed in over 60 powerlifting contests and 59 bodybuilding competitions. And as a result of his striking dedication, he earned his IFBB Pro card in 2012.

The accomplishments don't just stop at physical strength. Greg committed himself to the scientific study of human body movement, gaining a Bachelor's and a Master's degree in Kinesiology. With a GPA of 3.93 out of 4.00, it's no surprise he graduated at the top of his class.

A combination of technical knowledge and a large appetite for success makes Greg Doucette the perfect mentor. He has been working hard to help thousands of clients achieve their ideal physique and build healthy habits to last a lifetime. His formal education helps him disprove common myths spread by the fitness industry, while his expertise in bodybuilding and powerlifting guides the more experienced clients in contest preparation.

Beyond one-on-one coaching, Greg uses his no-nonsense attitude and sense of humor to educate and entertain more than 1.8 million subscribers on his YouTube channel. He showcases his favorite anabolic recipes, exposes the lies of the fitness industry, and spills his secrets on the most optimal ways to train. And with over 670 million total views, his content and zero-bullshit advice are helping millions achieve their ultimate fitness goals.

A Message from your Coach...

You did it!

You made the completely non-moronic decision to buy my ultimate Anabolic cookbook, congrats! You now have full access to my favorite and exclusive recipes that I eat consistently to keep my physique in top condition.

This cookbook is a blueprint that you can use every day to build positive eating habits that will allow you to reach your fitness goals (and to **ALWAYS** keep on reaching them) wherever you are!

Nutrition plays a major role in building and maintaining a body you're proud of. It **CANNOT** be overlooked. But who says your diet has to be boring? The recipes found in this book will make you realize that cooking can be fun and that you don't have to be a gourmet chef to create tasty, nutritious foods!

Before the days of YouTube, getting this diet advice and knowledge out there on a big scale was next to impossible. Only my private clients really got access. Now, my videos are viewed by **MILLIONS** around the world and my **BULLSHIT-FREE** advice is helping many people lead healthier and **BETTER** lives.

Seeing the transformations from my coaching makes me love my job! If you'd like to forward any before/after photos, please share them at this link: gregdoucette.com/testimonials and tag me on Instagram!

Read This Before Cooking!!

Frequently Asked Questions

This FAQ will be periodically updated based on frequent questions coming in through my DMs and emails. Make sure you check your email in case this book has updates! Send all of your questions to recipes@gregdoucette.com. If there are many questions related to a certain topic, my team and I will send out an update to this book.

1. What does “1 serving of veggies” in the recipes mean?

You will notice that this cookbook contains flexibility in each recipe. Many of the recipes reference “1 serving of veggies” or “1 serving of fruits.” At the very end of this cookbook is a reference section which contains tables with common fruits and vegetables that represent **1 whole serving equal to 100 calories. By that logic, a half serving is equal to 50 calories.**

If your recipe calls for 1 full serving of veggies, you can mix and match vegetable amounts based on the reference table to equal 100 total calories from vegetables. As an example, you may choose to eat both cucumber and tomatoes. If 600g cucumber and 450g tomatoes are each 1 full serving of vegetables, then you can eat 300g cucumber and 225g tomato in one recipe for one full serving of vegetables totaling 100 calories.

I repeat: 1 serving of fruit or vegetables is NOT what's listed on the package you're buying. 1 serving is 100 calories of that fruit/vegetable!!

2. How do I use the nutrition facts when there is flexibility in the recipes?

You will notice that recipes that include either a serving size of veggies or fruits also have nutrition facts, even though the type of vegetable or fruit is not specified. The nutritional guidelines are all rough estimates, with up to a 20% deviation from what the true total calorie and macronutrient contents will be. It is up to you to do your own calculations. I encourage you, once again, to focus on the total calories of each meal instead of the total amount of each macro in each meal.

3. Why are there macronutrients listed if you don't count macros?

Because some of you MORONS are still going to count macros even when I tell you not to! See my video on MORONIC MISCONCEPTIONS ABOUT MACROS to understand my view on this issue!

4. Can I substitute X for Y???

There are NO RULES IN THIS KITCHEN! The kitchen is your oyster/haddock/cod! Make as many substitutions as you like according to your taste preferences and dietary needs.

There are a few things to keep in mind when choosing a substitution:

The first is to ensure that whatever substitution you make serves a similar purpose as the ingredient the recipe calls for. As an example, let's say that the recipe calls for guar gum. Guar gum is a thickening agent, so

you cannot just replace that with a banana which provides a sweet banana taste. You can substitute guar gum for another thickening agent such as xanthan gum, but not a banana.

The next thing is to ensure that you substitute ingredients with similar protein and calorie content. As an example, let's say a recipe calls for 100g grilled chicken breast, but you want to use chicken thigh. You cannot just simply use 100g of chicken thigh and expect to get the same nutritional value from the recipe. Chicken thigh has more fat than chicken breast, so you can't just make that substitution with the same weight of chicken and expect the calories/macros to be the same.

This does not mean you are not allowed to eat chicken thighs. You can eat whatever you want. But if you want to maximize your protein and conserve calories and stick to the recipes as closely as possible, you should EITHER:

1. Keep the chicken thigh in the recipe but reduce the weight, OR
2. Choose something that is more similar to chicken breast in terms of calorie content as well as protein content. An appropriate substitution for 100g of chicken breast might be 100g extra-lean ground turkey.

Whatever you substitute, be sure to re-calculate the total calories so you can make sure your modifications are still appropriate for your diet and your goals.

5. Are your recipes friendly to vegan / vegetarian dieters?

See point #4. You can make as many substitutions as you want according to your taste AND dietary preferences. Not only that, I do have vegan / vegetarian recipes as written. If a recipe is vegan / vegetarian as written, it will be listed on the upper left hand side of the recipe page.

There is also a page in the references section to be able to identify recipes based on the diet types they are friendly to.

6. Where do I buy supplements and special ingredients?

Most recipes will contain links to purchase the special ingredients in them (www.htltsupps.com). There is also a special ingredient links page in the Reference section.

7. Do I need a coach after buying this cookbook?

This cookbook does not replace a human coach! It is just another tool in the toolbox to help you achieve your physique and lifestyle goals. A coach provides you with ongoing support, accountability, and advice. This cookbook provides you with delicious recipes! To hire ME as a coach, visit gregdoucette.com/coaching for more information.

8. Do I need to measure the food?

YES! You should measure your food with a food scale. **Grams are more accurate than measuring cups/utensils. Keep in mind that cooked meats weigh less than raw meats due to dehydration during cooking.** For example, a 100g raw chicken breast could be less than 100g after cooking, but still have the same calories.

9. What if the ingredient specified in the recipe is out of stock or unavailable in my country?

There is not much we can do about the fact that sometimes small companies are out of stock of our favorite products. Since a lot of my recipes reference special ingredients, you should follow the substitution guidelines in question #4 when a special ingredient is out of stock.

As an example, if your favorite brand of protein bread is not available, you can choose another brand of protein bread, or substitute regular ass white bread and add in another protein source.

10. Are the nutrition facts accurate?

See my video on “ARE NUTRITION LABELS ACCURATE?” Generally, you will never get the calories 100% accurate. Nutrition labels can be off by as much as 20% up or down. The best way to get as close as possible is to weigh everything yourself to the gram and do your own calculations. However, don’t lose your mind obsessively trying to be perfect. **DON’T LOSE YOUR MIND!**

This is why I have developed “**The Circle Standards Guide**”. This allows my recipes to be as accurate as possible.

11. What is “regular ass bread?”

All of my recipes that have “regular ass bread” in them assume approximately 80-calorie slices of any brand of white bread. Here is a specific example: Pepperidge Farm Italian White Bread - 80 calories per slice.

But, in some grocery stores you may not be able to find 80 calorie white bread. If you can only find 100 calorie white bread, that is fine. Just know that when you make a sandwich, it will be 40 calories more (because 2 slices of white bread will each add 20 calories to the entire sandwich).

Just make sure you are keeping a close eye on your total calories.

12. What if I need to follow a gluten-free diet because I have celiac disease?

Many of the recipes in this book are friendly to gluten-intolerant diets. Just make sure that whatever ingredient you purchase and use is CERTIFIED gluten-free. If you are celiac, you should know this. I shouldn’t have to say it!

13. Can I substitute other sweetener brands / types other than the ones listed in the recipes?

Yes, you may substitute other sweeteners than the ones listed in the recipes, but DO YOUR HOMEWORK. Some sweeteners are stronger than others. 2 grams of packet sweetener is not the same as 2 grams of Erythritol. Whenever you go to make a substitution, ALWAYS research how the product influences the taste, and adjust accordingly.

That all said, here are some guidelines to work with in case you want to use a different type of sweetener than what is provided in the recipe ingredients:

Sweetener	Equivalent
1 packet sweetener	2 tsp sweetener of choice
1 packet sweetener	8g Erythritol
12g Erythritol	1 tbsp Splenda

14. I don't have a food scale! I don't know how to measure tablespoons! How do I know how much of a certain ingredient to use?

First of all, if you are reading this book and do not have a food scale to measure ingredients in grams, YOU SHOULD HAVE ONE! Go buy one right now!!

Second of all, you should not be converting weights to volume and vice versa. But sometimes, it's a bit easier and faster to do so. You will see that many of the recipes in this book have these types of conversions in the ingredients list.

Here is a standard table for converting metric to standard units as well, in case you do not have a tool to measure weights. You can also use this as a reference for converting a weight unit to another weight unit, and a volume unit to another volume unit.

NOTE THAT THESE ARE APPROXIMATIONS:

Unit 1	Unit 2	Unit 1	Unit 2
1 ml of fluid	1 gram	454 g	~1 lbs
3 tsp	1 tbsp	1000 g	1 kg
8 tbsp	½ cup	240 ml	1 cup
4 cups	1 litre	120 ml	½ cup
16 oz	1 lb	60 ml	¼ cup
28.35g	1 ounce	30 ml	⅛ cup

15. There is a baked recipe that doesn't work! What happened?

There are many reasons why a particular baked good may not “work” for you, even if you follow the recipes precisely as written. Here are a few things that cause variation in baked recipe outcomes:

- Protein powders vary in their texture and ingredients. Casein protein has a very different texture from whey protein, for example.
- The type of baking dish used will make a difference in bake time. As an example, silicone baking pans tend to cool faster than metal baking dishes.
- Ovens vary in their strength.

You may need to “play” with your baked recipes a bit to get the right texture. Sometimes all it takes is adding 1 tbsp of water to make the batter just right. If you are unsure, send an email to recipes@gregdoucette.com.

16. Do I have to use HTLT Protein, or can I use other brands?

The recipes will work BEST with HTLT protein as they were designed specifically to bake with. However, feel free to use any brand/ flavor of protein you’d like. REMEMBER to match up the type of protein powder if possible (for example swap HTLT Whey for another whey, or swap HTLT Whey+Casein for another whey+casein blend). For those of you who are vegan, try using HTLT Vegan Protein Powder! To purchase HTLT Protein Powder, visit www.htltsupps.com.

17. Can I store food? How do I safely store my leftovers?

Making the most of your leftovers is an important way to cut down on food waste and help maximize your meal prep. Leftover food should be put in the freezer or fridge within a few hours of being cooked. All food should be stored in sealable, shallow containers as this will help them cool quicker. When storing bulk food, portion out the food into serving sizes and store in individual containers. It’s important to label the food containers (recipe name and date cooked). This helps keep you aware of what is in each container, as well as how long it has been in the fridge/ freezer. Defrost frozen food in the fridge before reheating/cooking.

The Recipe isn't Working?

1. If your mixture consistency is too thin (too runny):

Add a small amount of guar gum (¼ - ½ tsp) or thickening agent of choice.

OR

Use a type of protein powder that is thicker than what you are using (see guide below).

2. If your mixture consistency is too thick (can barely stir):

Add a small amount of liquid (water, unsweetened nut milk, etc).

OR

Use a type of protein powder that is thinner than what you are using (see guide below).

* Follow point 1 OR 2 slowly until desired consistency is reached.

Protein Powder Thickness Guide

HTLT Vegan Protein Powder has been **OPTIMIZED FOR BAKING** while still tasting delicious!

Whey protein powders may not bake as well as whey+casein blends.

Ingredients are listed in the order of what the container has the most of, to the least of. If the first ingredient is casein, it has more casein than any other ingredient, and is likely more expensive.

Mixing Guide/Syrup Preparation

Dry FibrO	(std. units)	+	Water	=	Prepared Syrup	Calories
908g	(Full Tub)		576g (~2½ cups)		1484g	2043 kcal
500g	(4 cups)		320g (1½ cups)		820g (~2½ cups)	1125 kcal
375g	(3 cups)		240g (1 cup)		615g	844 kcal
250g	(2 cups)		160g (¾ cup)		410g (~1¼ cups)	562 kcal

~94g	(¾ cup)		60g (¼ cup)		~154g	211 kcal
~63g	(½ cup)		40g (~3 tbsp)		~103g	141 kcal

Ratio

- When working with grams, use ~ ⅔ as much water as FibrO (~ 2:3 ratio) **eg. 200 g water mixed with 300 g FibrO IMO Powder.**
- When working with cups, use ⅓ as much water as FibrO (1:3 ratio) **eg. ⅓ cup water mixed with 1 cup of FibrO IMO Powder.**

Direction

1. Warm the water in the microwave for 20-30 seconds (microwaves vary in watts). Add the **FibrO IMO Powder** to the water and stir until smooth. If the mixture is still lumpy, place it back in the microwave for another 15 seconds and stir well until the mixture is smooth.
2. Cover and let stand for 30 minutes to overnight.
3. The mixture will look foggy at first but will become more clear over time.

Ingredients

Makes 12 Servings. Serving size varies depending on how large or small you cut the pieces.

- 18 slices regular ass bread or one loaf (570g)
- 1920g (4 cartons/2000ml) egg whites
- 12g (1½ tbsp) cinnamon
- 15g (1 tbsp) vanilla extract
- 15 packets (⅔ cup) sweetener
- 1500g or ~10 apples of your choice
- Cooking spray

Directions

1. Pre-heat the oven to 400°F (204°C).
2. Chop the apples into small pieces, set aside. In a bowl, whisk egg whites, cinnamon, sweetener, and vanilla. Then, incorporate the apples and mix with a spatula or utensil.
3. Tear the bread into small pieces and place in a bowl with the apples and egg mixture. Mix with your hands until the bread pieces have absorbed the liquid, creating a batter.
4. Spray a casserole dish with cooking spray for 1 second. Pour the mixture into the casserole dish.
5. Place the casserole dish uncovered in the middle rack and cook in the oven for approximately 50 minutes or until the liquid has been absorbed.
6. Remove the casserole from the oven, let it cool, and serve.

Anabolic French Toast is one of my classics! Enjoy this delicious high protein version of a North American classic breakfast.

Ingredients

Makes 3 Slices

- 300g (1¼ cup) egg whites
- 3 slices regular ass bread
- 3 packets (2 tbsp) sweetener
- 2.8g (1 tsp) ground cinnamon
- 5g (1 tsp) vanilla extract
- Cooking spray

Top with

60 ml (~4 tbsp) low-calorie maple syrup (20 calories)

Directions

1. In a bowl, add egg whites, sweetener, cinnamon, and vanilla extract. Whisk until spices are evenly distributed throughout the mixture.
2. Heat a skillet over low-medium heat. Spray skillet with cooking spray.
3. Dip bread slices into egg white mixture, and transfer to pan.
4. Spoon any leftover egg white mixture on to the bread in the pan. If done slowly, the bread should absorb the mixture and get fluffy.
5. Let it cook for about 3-4 minutes on each side.
6. Remove French toast from the pan and serve on a plate with suggested toppings. Enjoy!

Meal prep tip: If you want to save time, make as many batches as possible at once and store the cooked French toast in a sealed container in the refrigerator. That way you can heat up and enjoy whenever you want.

Tasty tip: I recommend pairing the French toast with fresh fruit or your favorite low-calorie syrup. If you want to add some extra protein serve the French toast with Strawberries and Cream ([see page 207](#)).

Ingredients

Makes 4 Servings

Filling

- 55g banana, sliced
- 16g (~1/2 scoop) **HTLT Chocolate PB Whey+Casein Protein Powder** (or whey+casein of choice)
- 7.5g (1 tbsp) cocoa powder
- 15g (1 tbsp) water

French Toast Base

- 4 slices regular ass bread (80 calories per slice)
- 240g (1 cup) egg whites
- 3 packets (2 tsp) sweetener
- 2.8g (1 tsp) ground cinnamon
- 2.5g (½ tsp) vanilla extract
- Cooking spray

Toppings

- 6g (½ tbsp) powdered peanut butter (PB2)
- 75g strawberries
- 60 ml (¼ tbsp) low-calorie maple syrup (10 calories)

Directions

1. In a bowl, mix the filling ingredients (except for the banana) with a fork or whisk until well mixed.
2. There are two ways to make the roll-up:
 - Option 1: Spread the mixture on top of the bread and add the sliced bananas. Then, fold the piece of bread in half and pinch/press the edges to seal in the filling.
 - Option 2: Flatten the bread with your hands. Then, spread the mixture onto the slices of bread, and add the sliced banana on top. Then, roll up the bread.
3. Whisk egg whites, cinnamon, and vanilla extract in a bowl.
4. Heat a pan over medium heat and spray with cooking spray.
5. Once the pan has achieved medium heat, submerge the sealed bread pockets into the egg mixture.
6. Remove and place onto the pan until the egg whites are fully cooked.
7. Remove from the pan and plate with optional toppings of powdered peanut butter (either mixed with water or dry), strawberries, and low-calorie maple syrup. Serve and enjoy!

Blueberry French Toast

Vegetarian

Prep Time
10 MinutesReady In
20 MinutesDifficulty
Medium

Ingredients

Makes 3 Servings

- 240g (1 cup) egg whites
- 3 slices regular ass bread (80 calories per slice)
- 90g blueberries
- 3 packets (2 tbsp) sweetener
- 2.8g (1 tsp) cinnamon
- 5g (1 tsp) vanilla extract
- Cooking spray

Recommended Toppings

60 ml (4 tbsp) low-calorie maple syrup (20 calories)

Directions

1. In a bowl, add egg whites, sweetener, cinnamon, and vanilla extract. Whisk until spices are evenly distributed throughout the mixture.
2. Heat a skillet over low-medium heat. Spray skillet with cooking spray. Place blueberries on the stove while the pan is heating up.
3. Whisk egg whites, cinnamon, and vanilla extract in a bowl. Dip the bread slices one by one into the mixture for 5 seconds. Place the bread slices in the pan on top of the blueberries. Spoon any leftover egg white mixture onto the bread in the pan. If done slowly, the bread should absorb the mixture and get fluffy.
4. Let cook for about 3-4 minutes on each side.
5. Remove blueberry French toast from the pan and serve on a plate with toppings. Suggestions for toppings are extra fruit and low-calorie syrup.

Ingredients

Makes 1 Batch. Serving size varies depending on how large or small you cut the pieces.

- 18 slices regular ass bread (or one loaf [570g] of regular ass bread)
- 1440g (3 cartons) egg whites
- 21g (3 tbsp) cinnamon
- 15g (1 tbsp) vanilla extract
- 15 packets (¾ cup) sweetener
- 1500g (~10) nectarines or peaches, frozen or fresh, IT DOESN'T MATTER

Directions

1. Pre-heat the oven to 400°F (~205°C).
2. Cut the nectarines/peaches into small pieces.
3. In a bowl, whisk egg whites, cinnamon, sweetener, and vanilla.
4. Tear the bread into small pieces and place in a bowl with the peaches, egg whites, cinnamon, sweetener, and vanilla. Mix with your hands until the bread pieces are well soaked with the batter.
5. Spray a casserole dish for 1 second. Pour the egg white/bread mixture into the casserole dish.
6. Place the casserole dish uncovered in the middle rack and cook in the oven at 400°F (~205°C) for 40-50 minutes.
7. Remove from the oven, let it cool and serve on a plate.

Everyone knows that I'm famous for my Anabolic French Toast. This time I've taken it one step further, and made it MORE ANABOLIC THAN LAST TIME. You'll love these rice cakes since they are even more low-calorie dense than regular ass bread. If you're not a fan of chocolate, experiment with some different types of protein powder.

Ingredients

Makes 6 Cakes

- 6 rice cakes (up to 35 calories each)
- 120g (¾ cup) egg whites
- 10g (2 tsp) vanilla extract
- 17g (~½ scoop) **HTLT Chocolate Whey+Casein Protein Powder** (or whey+casein of choice)
- 2 packets sweetener

Fat (g)	0.5	0.2	0
Carbs (g)	47	23	8
Fiber (g)	0	0	0
Protein (g)	31	15	5

Prep tip:

- Let me share a secret, you can make this recipe with 35 less calories! Only use 5 rice cakes and soak them for longer.
- I personally use 6 rice cakes. It's quicker as you are not soaking them for as long, so it saves me time in the morning.

HTLT Protein Powder

Directions

1. Heat a large pan over medium-low heat.
2. Place all ingredients (except rice cakes) into a bowl and whisk.
3. Once whisked thoroughly, dip the rice cakes into the bowl (~5 seconds each side) and flip them to make sure the egg whites are absorbed. Next, place them onto the pan.
4. If there is any egg white mixture remaining, pour it over the last rice cake you placed on the pan to ensure it is fully covered.
5. Flip the rice cakes until they are golden brown on the outside (or cooked to desired firmness).
6. Top with your favorite ingredients (best topped with sugar-free caramel syrup, chocolate syrup or low-calorie maple syrup).

Think you need eggs to make French toast? Well think again! Finally, French toast that's high in protein and low in calories with ZEEEEEEERO animal products.

Ingredients

Makes 5 Servings

- 240g (1 cup) unsweetened vanilla cashew milk
- 5g (1 tsp) vanilla extract
- 3g (~1 tsp) cinnamon
- 50g (~1 ½ scoops) **HTLT Vanilla PB Vegan Protein Powder** (or vegan protein powder of choice)

Fat (g)	11	7	2
Carbs (g)	87	52	17
Fiber (g)	5	3	1
Protein (g)	46	27	9

Tasty tip:

- Top with low-calorie maple syrup.
- Add ¼ - ½ serving (25-50 calories) fruit of your choice. I would choose blueberries!
- Feel free to use any flavor/brand of vegan protein powder.

Prep tip:

- Experiment with your favorite unsweetened nut milk including macadamia, almond, or walnut, and use the one you like most.
- For added protein, use 2 scoops of protein powder.
- For extra protein, use a plant-Based protein Nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).

Directions

1. Heat a large pan over medium heat.
2. In a shallow flat dish add the cashew milk, vanilla extract, cinnamon and protein powder.
3. Whisk together until all ingredients are blended.
4. Lay the bread in the mixture for a few seconds, flip over and repeat for the other side.
5. Quickly spray the pan with cooking spray. Then, lay the slices on the pan and cook for 3-4 minutes or until lightly browned. Flip and cook for another 2-3 minutes on the other side. You can repeat this process until the French toast is toasted to your desire.
6. Remove from the pan, and serve on a plate. Voilà, you have made yourself Eggless French Toast.

This eggless French toast comes out a little soft, which is generally how I like mine. It's delicious, but if you like a crispy French toast, this may not be the one for you!

Ingredients

Makes 5 Servings

- 250g (1 cup) unsweetened vanilla plant-based protein nut milk of choice
- 28g (~¼ cup) high-protein plant-based egg substitute (I used Veggie Power Scramble)
- 5g (1 tsp) maple extract
- 1.5g (~½ tsp) cinnamon
- 5 slices regular ass bread
- 2 packets sweetener

Protein (g)	41	25	8

Tasty tip:

- Top with low-calorie maple syrup.
- Add ¼ - ½ serving (25-50 calories) fruit of your choice. I would recommend using blueberries!

Prep tip:

- If the batter is too thick for your liking, substitute the plant-based protein nut milk for regular unsweetened cashew milk (I use Silk unsweetened vanilla 8g plant protein almond & cashew milk).
- To make extra anabolic, use 4 slices of bread instead of 5.

Directions

1. Heat a pan over medium heat.
2. In a shallow flat dish add the cashew milk, vanilla extract, cinnamon and protein powder, and whisk together until evenly blended.
3. Lay the bread in the mixture and flip back and forth until fully saturated. Repeat for all slices of bread.
4. Quickly spray the pan with cooking spray. Then, lay the slices on the pan and spread any remaining batter on top of the slices. Cook for ~5 minutes or until lightly browned. Flip and cook for another ~5 minutes on the other side. You can repeat this process until the French toast is toasted to your desire.
5. Remove from the pan, and serve on a plate and enjoy.

- 240g (1 cup) egg whites of choice (I prefer cheddar and chive)
- 1 tbsp minced garlic
- 1 tsp paprika
- 1 tbsp lemon juice (desired taste)
- Salt (desired taste)
- Cooking spray

Directions

1. In a medium bowl, mash up avocado to make it into a paste. Add the chopped tomato, chopped onion, paprika, minced garlic, lemon juice, salt & pepper, and mix.
2. Heat a pan over medium-high heat. Spray with cooking spray. Place three egg rings on the skillet and place the egg whites in the egg rings.
3. Lay the 3 rice cakes on a plate. Stack each rice cake with one of the egg white circles cooked in the egg white rings.
4. Divide the avocado mash and place on top of the egg white rings. Add sliced tomato on top.
5. Serve as three open-faced pieces of rice cake deliciousness. You may add fresh-squeezed lemon and cracked pepper if desired.

Ingredients

Makes 6 Pancakes

- 300g cauliflower
- 90g (1 cup) rolled oats
- 480g (2 cups) Cheddar and Chive fat-free egg whites or other flavored egg whites such as Garden Vegetable or Tex Mex
- 34g (1 scoop) **HTLT Vanilla Whey+Casein Protein Powder** (or whey+casein of choice)
- 3g (1 tsp) guar/xanthan gum
- Cooking spray
- Salt to taste

Directions

1. Place the cauliflower in a blender and blend on high until it's shredded into small pieces like "cauliflower rice".
2. Add the cauliflower rice, oats, Cheddar and Chive egg whites, guar/xanthan gum, sweetener and protein powder into a blender. Blend on medium to form a uniform mixture.
3. Heat up a non-stick skillet over medium-high heat.
4. Spray the skillet with cooking spray for one second.
5. Drop the batter into the heated skillet and cook until the edges and bottom begin to brown.
6. Flip and cook the other side until it is golden brown.

Tasty tip :

- It is better to make it a night before so that the mixture is thicker in the morning!
- You also don't have to use casein protein. If using whey protein and not casein it will not be as thick.
- If you can find flavored egg whites such as cheddar and chive which is my favorite, use them!! if not, you can just use regular egg whites.

Tasty tip:

- It is better to make it a night before so that the mixture is thicker in the morning!
- You can opt to use the baking powder for extra thickness (especially if you use whey protein rather than casein). You can get away without the baking powder.

Directions

1. Place the cauliflower in a blender and blend on high until it's shredded into small pieces like "cauliflower rice".
2. Add the oats, egg whites, protein powder, sweetener, guar or xanthan gum, baking powder (if used), cocoa powder and Walden Farms chocolate syrup into the blender. Blend on medium until the batter is smooth.
3. Heat up the skillet and spray with cooking spray for 1 second.
4. Pour ⅓ of the batter onto the skillet. Then place ⅓ of the fruit into the top of the batter, and ⅓ of the chocolate chips.
5. Cook until the edges and bottom begin to brown. Flip when it is ready then cook for a few more minutes. Remove from the pan, set aside.
6. Repeat step 4-5 two more times. Serve with low-calorie syrup.

Ingredients

Makes 2 Pancakes (4 Slice of Bread)

- 480g (2 cups) egg whites
- 4 slices regular ass bread (up to 80 calories per slice)
- 4 packets (~3 tbsp) sweetener
- 5.2g (~2 tsp) cinnamon
- 5g (1½ tsp) guar/xanthan gum
- 100g blueberries
- Cooking spray

Makes 2 Pancakes

60 ml (4 tbsp) low-calorie syrup (20 calories)

Directions

1. Add all ingredients (except blueberries) into the blender, and blend on high for 1 minute or until a uniform consistency is achieved.
2. (OPTIONAL) Transfer blended mixture to an airtight container, and let sit in refrigerator for 4 hours. (Note: these can be eaten right away, but it is preferable to let the batter thicken over a few hours).
3. Heat the skillet over low-medium heat. Spray skillet with cooking spray. Add mixture to skillet and let sit for 1-2 minutes until edges appear cooked through.
4. Add the blueberries to the pancake on the skillet.
5. Once edges start to brown, flip the pancake in the skillet and let sit another 1-2 minutes.
6. Remove pancake from the skillet and serve on a plate with low-calorie syrup or leftover blueberries.

Fat (g)	8	3	1
Carbs (g)	132	66	22
Fiber (g)	40	21	7
Protein (g)	74	12	37

Directions

1. Place the cauliflower in a blender and blend on high until it's shredded.
2. Place the remaining ingredients in the blender except the serving of fruit, and blend until smooth.
3. Heat a skillet over low-medium heat. Spray with cooking spray for 1 second, then pour mixture onto the pan.
4. Place the fruit on top of the pancakes while they're cooking.
5. Flip once the bottom is golden brown or until desired doneness. Enjoy!

Tasty Tip:

- To make these pancakes yummiier I like to pre-cook the cauliflower. The easiest way to do this is to prepare a microwave safe container with a waffle dish cloth or a cheese cloth lining the container. Place the cauliflower inside of the container and on top of the cloth and microwave it for 7 min. Once it has cooled down, gather the ends together and squeeze out all of the excess juices.
- Casein protein is thicker than whey protein. If you use casein, you don't need as much guar/xanthan gum.

Note:

- You can replace the plant-based egg substitute with ½ scoop of vegan protein powder and 1 extra gram of guar gum.
- If you aren't a fan of chocolate, omit the cocoa powder, and use a different flavor of vegan protein powder.
- I use Silk unsweetened vanilla 8g plant protein almond & cashew milk.
- I use Vegg Power Scramble as my plant-based egg substitute.

Directions

1. Add all the ingredients into the blender, and blend on high speed for 1 to 2 minutes.
2. Heat a pan on low-medium heat, and spray with cooking spray.
3. Pour the batter onto the pan. You can either cook the 3 pancakes one at a time, or all at once if you have a large enough pan.
4. Cook around 4 minutes, flip and cook 2 more minutes approximately.
5. Repeat steps 3 and 4 if you are cooking your pancakes one at a time.

These clusters are a great way to get in your fruits and vegetables. They are super moist, flavorful and high in protein. A simple “grab and go” snack or a quick breakfast.

Ingredients

Makes 12 Servings

- 200g shredded carrots
- 100g apples
- 99g (3 scoops) **HTLT Vegan Protein Powder** (flavor of choice / or brand of choice)
- 190g oat flour
- 180g (~¾ cup) pumpkin purée
- 180g (~¾ cup) unsweetened applesauce
- 10g (2 tsp) vanilla extract
- 3g (~½ tsp) salt (to taste)
- 5g (~½ tbsp) ground cinnamon
- 5-10 packets sweetener (or up to ⅓ cup of loose Splenda)

Directions

1. Preheat the oven to 350°F (~175°C).
2. Line a muffin tin with cupcake liners and spray with cooking spray.
3. In a large bowl, mix all the dry ingredients together thoroughly. In a separate bowl, mix all the rest of the ingredients together.
4. Add the wet ingredients to the dry ingredients and mix well until everything is well incorporated (the texture will be dense).
5. Fill the cupcake liners about ¾ full of the batter. “I put ¼ cup in each cupcake liner!”
6. Bake in the oven for 20 minutes, or until a toothpick comes out clean.
7. Remove from the oven and allow to cool down for at least 20 minutes before serving. Makes 12 clusters.

Ingredients

Makes 10 Muffins

- 285g (1¼ cup) 0% fat Greek yogurt
- 180g (¾ cup) egg whites
- 30 ml (2 tbsp) unsweetened almond milk
- 45 ml (3 tbsp) unsweetened applesauce
- 2 packets (or 4 tsp) sweetener
- 5g (1 tsp) vanilla extract
- 160g (~1 cups) oat flour
- 33g (1 scoop) vanilla whey protein powder
- 2.5g (½ tsp) baking powder
- 2g (½ tsp) baking soda
- 40g fresh strawberries, sliced
- 40g fresh peaches, chopped

Frosting

- 30 ml (2 tbsp) Swerve 0-Calorie Icing Sugar
- 8 ml (½ tbsp) unsweetened almond milk

Directions

1. Preheat the oven to 350°F (177°C). Place liners in a muffin tin and spray them with cooking spray.
2. In a bowl, mix all the dry ingredients together well. In a separate bowl or a stand mixer, whip together the rest of the ingredients until smooth. Add the dry ingredients to the wet ingredients and mix until incorporated. Fold in the strawberries and peaches gently with a spoon until well mixed.
3. Fill the muffin liners about ¾ of the way full with the batter. Bake the muffins in the oven for 25 minutes or until a toothpick comes out clean.
4. While the muffins are in the oven, add the frosting ingredients to a bowl and mix with a fork until well blended.
5. Remove the muffins from the oven and allow to cool for 15 minutes before placing the icing on top and serving.

Tasty tip:

- I like to dip these in no sugar-added ketchup.
- Use any combination of regular potatoes and sweet potatoes (to a total of 1000g).

Directions

1. Preheat the oven to 350°F (~175°C) and spray your muffin tin with cooking spray.
2. Peel and shred potatoes with a cheese grater and place in a large mixing bowl.
3. Add the remaining ingredients to the bowl and mix in the fat-free shredded cheese (if you are using fat-free slices, do not add them yet, see next step). Gently stir until everything is well combined.
4. Pack the filling into the muffin cups tightly using your fingers (if you are using fat-free cheese slices, pack half the filling into the muffin cup, followed by some cheese, and finish by tightly packing the second half of the filling on top of the cheese). Repeat for each muffin cup until all are filled.
5. Bake for 40-50 minutes or until golden brown.
6. Allow to cool for 5-10 minutes before removing them from the muffin cups. Eat right away or place into a sealed container to enjoy later.

Directions

1. Preheat the oven to 350°F (~175°C).
2. Cut the bread into small square pieces and place in a large bowl.
3. Add the egg whites and vanilla extract to the bowl allowing the bread to soak up the liquid.
4. In a separate bowl combine the protein powder and cinnamon mix, and add to the soaked bread. Combine both mixtures well. Allow this mixture to sit for a few minutes.
5. Divide the muffin mixture evenly into muffin cups and place in the oven for 25 minutes.
6. Test the muffins with a toothpick. If the toothpick comes out clean, remove it from the oven. Allow to cool for 5-10 minutes before removing them from the muffin cups. Eat right away or place into a sealed container to enjoy later.

Are you looking for another way to use your rice cakes? Look no further! These Caramel Rice Cake Sandwiches will satisfy your sweet tooth, while filling you up with less calories than last time! Who would have thought you could have dessert for breakfast?

Ingredients

Makes 3 Rice Cake Sandwiches

- 6 caramel rice cakes (up to 50 calories per rice cake)
- 120g (~½ cup) egg whites
- 1g (~ ½ tsp) cinnamon

Filling

- 34g (~ 1 scoop) **HTLT Vanilla Whey+Casein Protein Powder** (or whey+casein of choice)
- 2.5g (~ ½ tsp) maple extract
- 35g (2 ½ tbsp) low-calorie maple syrup
- 1 packet sweetener

Directions

Stage 1 Filling:

1. Put 1 scoop of vanilla protein (or flavour of choice) in a bowl.
2. Mix in the low-calorie maple syrup, sweetener and maple extract. The mixture will look dry at first but will eventually mix to a thicker consistency (be patient!).

Stage 2 Rice Cakes/Assembly:

3. Pour the egg whites and cinnamon into a flat bottom container and whisk/mix well.
4. Dip 2 rice cakes into the egg white mixture for 4 seconds on each side (for the last 2 rice cakes, you may need to swirl them in the egg white mixture or shake the container side to side in order to fully cover them).
5. Place the dipped rice cakes onto a plate and pour ⅓ of the filling on top of a rice cake. Then sprinkle ⅓ of the toffee bits over the filling. Next, place the other rice cake on top, forming a sandwich.
6. Repeat steps 2-3 (from Stage 2), to make the three Caramel Rice Cake Sandwiches.
7. Heat a pan over low-medium heat, then spray for 1 second with non-stick cooking spray.
8. Place the 3 Caramel Rice Cakes sandwiches on the pan. Heat for 4-5 minutes or until golden brown, flip and cook for 2-3 additional minutes.
9. Remove from the pan and let cool for 1-2 minutes to allow the rice cake to harden. You can eat as a sandwich or with syrup using a fork and knife (I personally eat these as sandwiches).

Directions

Stage 1 Filling:

1. Microwave the frozen banana for 30 seconds.
2. Mash the thawed banana with a fork until smooth.
3. Place the mashed banana and the additional filling ingredients into a bowl, and whisk until smooth (you can also use a hand blender, or fork if you'd like to mix longer than last time).
4. Set aside.

Stage 2 Rice Cakes/Assembly:

5. Pour the egg whites, cinnamon and vanilla extract into a flat bottom container and whisk or mix well.
6. Place 2 rice cakes into the egg white mixture for 5 seconds on each side. Place the dipped rice cakes onto a plate and pour ¼ of the filling on top of one rice cake. Then place the other rice cake on top, forming a sandwich.
7. Repeat step 6 to make the four Banana Cream Stuffed Rice Cakes (for the last 2 rice cakes, swirl them in the egg white mixture or shake the container side to side in order to fully cover them. If you have leftover filling, you can make a 5th sandwich, use it as a dip, or lick the bowl like I do!).
8. Heat a pan over low-medium heat, then spray for 1 second with non-stick cooking spray.
9. Place the four Banana Cream Stuffed Rice Cakes on the pan. Heat for 3-4 minutes or until golden brown, flip and cook for 2-3 additional minutes.
10. Remove from the pan and eat as a sandwich, or with syrup using a fork and knife.

Tacos, Wraps & Sandwiches

General Chicken/Beef/Egg Whites/Turkey Wrap Variations

For all wraps, add **¼ serving (up to 25 calories worth) of veggies**. These veggies can be whatever you want; it doesn't matter! Coach Greg personally prefers some combination of cucumber, spinach, mushrooms, and onions. Remember, the more high volume, low calorie-dense the vegetables, the fuller you will feel after eating the wrap. Make it BIG so it makes you feel satiated. Don't choose avocado and full-fat peanut butter -- they're too calorically dense!

Use a big piece of ROMAINE LETTUCE as a barrier so that your wraps stay together when you load it up with ingredients.

Another tip is to add a few dashes of flavor for each wrap for extra deliciousness. ***The calories and macros in all of the wraps assume that you've added 1 tbsp of condiments (mustard, salsa, BBQ sauce, etc.), 1 tbsp soy bacon bits, and ½ tsp seasoning of choice.***

- 2 low-carb tortilla wraps (La Tortilla brand - 110 calories each, 220 calories total)
- 55g green cabbage, shredded
- 55g red cabbage, shredded
- 60g carrots, julienned/cut into thin strips
- 60g mango, diced
- 30g pineapple, diced
- 15g red onion, diced
- 1 tbsp cilantro, chopped
- 1 tbsp rice wine vinegar
- Salt and pepper

Note:

- To avoid breaking the tortilla I like laying a layer of romaine lettuce on top of the tortilla and before the other ingredients.
- Feel free to use the brand of wrap that is available to you.

Directions

1. In a bowl, mix together the mango, pineapple, cilantro and onion. Place in the fridge or to the side until you are ready for it.
2. In a separate bowl, mix together the red and green cabbage, carrots, rice wine vinegar, ½ tsp salt and ½ tsp pepper. Set to the side.
3. Season the chicken with salt and pepper and place on the grill. Cook over medium high heat for 3-5 minutes on each side or until the chicken is fully cooked. Remove the chicken from the grill and cut into 1-inch strips.
4. Begin to build the wraps with the grilled chicken, slaw and mango relish. Serve and enjoy!

- 85g (½ cup) 0% fat Greek yogurt
- 4 Mission or Mama Lupe's Tortillas (70 calories each)
- 15g green onion
- 15g red onion
- 100g tomato
- Juice of 1 lime
- 1 clove of garlic
- Salt and pepper to taste

Ingredients for the Fish:

- 200g (7oz) haddock RAW / 150g haddock COOKED
- Salt, pepper, cumin and coriander to taste

Directions

Directions for Slaw Salad:

1. Shred the cabbage into long thin strips and put into a large mixing bowl.
2. Dice the green onion and red onion. Add the diced onion and minced garlic to the cabbage bowl and toss to mix.
3. Add the Greek yogurt, lime juice, salt, and pepper to the cabbage bowl, mix well, and set aside.

Directions for Fish:

4. In a bowl, mix all the desired seasonings (salt, pepper, cumin and coriander) to taste. Place the haddock in the bowl and toss until both sides are fully coated with seasoning.
5. Place fish in a pan over medium heat, then flip the fish when the sides are turning white and cook for a few more minutes.
6. In the centre of the tortilla, spread the slaw salad from one end to the other. Cover the salad with pieces of cooked, warm haddock, and top with tomato.

2. Remove chicken from the pot and transfer to a cutting board. Pat dry. Shred the chicken breast. You can do this with a fork, with a large grater, or with your hands.
3. In a bowl, mix mayonnaise, Dijon mustard and sriracha.
4. Place the chicken in the bowl with the mayo, mustard, and sriracha, and toss well until all of the chicken is coated.
5. Arrange rice cakes on a plate. Spread chicken over the four rice cakes.
6. Place veggies on top of the shredded chicken.
7. Top with one large piece of lettuce.
8. Serve and enjoy.

I love making this recipe for summer BBQs! It's easy, yummy, and you can meal prep in large quantities. Preserve frozen and grill as you need it.

Ingredients

Makes 1 Serving

- 454g (16 oz) raw chicken breast
- 60g (¼ cup) egg whites
- 4g (1 tbsp) Italian salad dressing
- 3g (1 tsp) paprika
- 5g (1 tsp) salt
- 2g (½ tsp) garlic powder
- 1g (½ tsp) pepper
- 0.5g (¼ tsp) cumin
- 0.5g (1 tsp) parsley flakes
- 0.5g (1 tsp) Mrs. Dash, or a spice blend of your choice

- *The air fryer is my favorite method for reheating these, because they re-crisp again. Air fry them at 350°F for 5 minutes, flipping halfway through.*
- *The microwave is my least favorite way for reheating since they get a soft texture.*

Directions

1. Cut the chicken breast into small pieces and put it in a bowl or in a zip-loc bag.
2. Pour Italian salad dressing over the chicken breast, toss it well, and add the egg whites then toss again. Seal and refrigerate for at least 1 hour (for better taste leave overnight).
3. Transfer the chicken pieces into a bowl and sprinkle with Mrs. Dash spice and toss to coat evenly.
4. Place in an air fryer for approximately 10 minutes, until cooked.
5. Remove from the air fryer, serve on a plate and pair with your favorite low-calorie dips.

I absolutely love chicken; this recipe is perfect for when we have leftover chicken at the house and it's just delishhh. They are crispy on the outside with a juicy cheesy interior, and the best is that you can re-crisp them in 5 minutes.

Ingredients

Makes 1 Patty

- 300g extra lean chicken breast
- 60g (~¼ cup) egg whites
- 19g (1 slice) fat-free cheddar cheese slice
- 0.7g (~1 tsp) dry parsley
- 30g ground TVP textured vegetable protein
- 1.9g (~1 tsp) onion powder
- 1.5g (~1 tsp) garlic powder
- 0.5g (~¼ tsp) pepper

Fat (g)	7	2
Carbs (g)	17	6
Fiber (g)	7	2
Protein (g)	98	32

Prep tip:

- You can use vinyl gloves to shape the patties. It's way easier to shape them if the gloves are damp.
- The air fryer is my favorite method for reheating these patties, because they get crispy again. You can re-crisp the patties in the air fryer at 350°F for 5 minutes, flipping halfway through.
- The microwave is my least favorite way for reheating since they get a soft texture.

Tasty tip: I love pairing my cheddar patties with Crispy Onion Toppers (see page 113).

Directions

1. Add all the ingredients into the food processor and blend mixture for about 2 minutes.
2. With the help of a spatula or your hands separate the mixture into 6 equal portions.
3. Cut the cheese slice in 3 equal parts and set aside.
4. Prepare a baking sheet or the air fryer basket with parchment paper and transfer two portions of the mixture onto the sheet. Dampen your hands under the tap water and push the portions down individually, forming a thin layer.
5. Place one of the cheese portions on the first chicken patty, and with the help of a spatula lift and flip the other patty on top of the one with the cheese.
6. Seal the patties with the help of your fingers and repeat the process 2 more times until you have completed 3 beautiful patties.
7. Fry at 360°F for 10-15 minutes, or until they are golden brown.
8. Serve them warm and enjoy.

Who doesn't love French toast? And who doesn't love grilled cheese sandwiches? Well, I decided to combine these two American classic recipes and create an explosion of anabolic deliciousness. Once you try this recipe, it will become part of your every day meal rotation. That's a guarantee!

Ingredients

Makes 1 Sandwich

- 480g (2 cups) egg whites
- 2 slices regular ass bread (160 calories)
- 2 slices fat-free cheese OR 38g fat-free shredded cheese (60 calories)
- Salt & pepper to taste
- Cooking spray

Optional

- 45g (3 tbsp) sugar-free ketchup (add 30 calories) OR condiment of choice

Directions

1. Heat a non-stick pan over medium-low heat. Spray with cooking spray for one second.
2. Pour egg mixture into the pan.
3. Place bread slices on the pan for 15 seconds then flip.
4. Cook for a few minutes until the egg mixture is cooked. You can cover the pan to cook evenly or flip egg whites while cooking until desired readiness.
5. Fold the egg mixture onto the bread slices and place a slice of cheese on top of each slice (add salt & pepper if desired).
6. Place bread slices on top of each other, allowing the cheese to melt inside the sandwich.
7. Turn off the heat, and place the sandwich onto a plate. Eat immediately with a fork with no sugar-added ketchup if desired. THIS IS ONE SITUATION WHERE YOU NEED TO PICK THE FORK UP!!

Tasty tip: I use “Club House” Sloppy Joe Seasoning. However, if I don't have it I use paprika, chili Pepper flakes, garlic, onion salt etc.

Directions

1. Heat a pan over medium heat. Cook the turkey meat until it fully cooks through. Remove from the pan and drain in a colander/strainer.
2. Add in the onions, garlic, mushrooms and pepper. Cook and stir for 5 minutes or until thoroughly mixed with the meat.
3. Add in the Sloppy Joe Seasoning, tomato sauce and the guar/xanthan gum. Mix with a spoon and reduce heat to low.
4. Place one serving (two slices of bread...toasted if you like it crispy!) on a plate and spread $\frac{3}{4}$ cup (180 ml) of the Sloppy Greg mixture on to each slice of bread.
5. Optional: Add a fat-free cheese slice on top of the Sloppy Greg sandwich (adds 30 calories per serving).

2. Repeat the blending and scraping process 2 more times.
3. Once your Vea-NOT butter is lighter in color, thick and glossy, it is finished. Remove from the blender.
4. Allow to thicken and cool in the fridge as it will be hot from blending.

Tasty tip:

- Great for dipping your favorite fruits and vegetables.
- Keep refrigerated, and best if used within one week.

Prep tip:

- To make this extra anabolic use high protein plant based nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).
- It will thicken over time so you can add more milk and stir as needed. Add 80g-120g of unsweetened cashew milk for a thicker consistency, add less for a smoother consistency (the way I like it).

Quick & Easy Chips

1. Preheat oven to 350°F (~175°C).
2. Lay out 1 Joseph's Lavash Bread (or similar low-calorie wrap).
3. Slice it into pieces with a pizza cutter, knife, etc.
4. Cover a baking sheet with aluminum foil.
5. Spread out the chips evenly.
6. Bake for ~3-4 minutes (be very careful as you do NOT want to burn these).
7. Remove from oven to check chips. If they aren't crispy enough, put them in for another minute and monitor them closely until done.

Directions

1. Preheat the oven to 350°F (~175°C).
2. Cut the onions into small pieces and add to a lightly sprayed frying pan, and sauté at a medium-high heat until lightly browned. Add the minced garlic to the pan and mix both together for 1 minute.
3. Add the ground turkey to the pan. Cook for approximately 7-8 minutes, or until fully cooked and most of the liquid has evaporated.
4. Add salsa and let sit for 10 minutes on low-medium temperature.
5. Mix in the seasoning and remove from heat.
6. Place the mixture into an oven safe dish (9"x9" casserole dish).
7. Place in the oven for ~10 minutes.
8. Remove from the oven and enjoy!

Note:

- I often eat this straight out of the container with a fork cold before bed.
- If you choose to make it cheesy, add the cheese before placing the dish in the oven so it melts! Be sure to add the macros for the cheese.

Powdered chocolate peanut butter exists. While it tastes ok, it still doesn't have the same consistency as the "real" thing. Challenge accepted! With this Chocolate NOT-ella Pea-NOT Butter, you're getting MORE protein than the mixed powder on it's own, with an even better texture!

Ingredients

Makes 6 Servings

- 100g canned kidney beans (washed and drained)
- ~70g (~2 scoops) **HTLT Chocolate Peanut Butter Whey+Casein Protein Powder** (or whey+casein of choice)
- 50g (~½ cup) chocolate powdered peanut butter
- 30g (~¼ cup) **FibrO IMO Powder**
- 100g (~¾ cup) unsweetened vanilla cashew milk
- 30g (2 tbsp) Walden Farms chocolate syrup
- 1g (~½ tsp) guar gum
- 1g salt (to taste)

Directions

1. Add all the ingredients into a blender and blend for 30 seconds-1 minute on high speed. With a spatula, scrape the sides of the blender and push the mixture down to ensure all the ingredients are well blended.
2. Blend for another 30 seconds-1 minute on high speed, scrape the sides again with the spatula, and push down.
3. Repeat step 2 (if desired).
4. Once your Chocolate Pea-NOT Butter is lighter in color, thick, and glossy, it is ready to serve.
5. Allow to cool in fridge for best results.

Note:

- IMO Powder contains only 2 calories per gram. This explains why the calories don't appear to add up, when they in fact do.
- As time passes, the Chocolate Pea-NOT Butter will thicken. Add 1-2 tbsp of nut milk to re-soften it again.
- If using whey protein or for thicker consistency, use 80g (⅓ cup) of nut milk. For a softer consistency, use 120g (½ cup) of nut milk.
- To make vegan, simply use vegan protein powder.
- You can eat on rice cakes with fruit/veggies, or in sandwiches as seen throughout the book.
- To make extra anabolic, use a plant-based protein nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).

Avocado Pea-NOT Butter

The healthier and tastier than last time way to eat Pea-NOT Butter. Rich in protein and healthy fats, this recipe can surely satisfy a sweet craving. I can eat it right off the spoon anytime of the day. It also goes well with celery and carrots and/or fruit.

Ingredients

Makes 5 Servings

- 60g (1 serving) avocado
- 55g (~¼ cup) 0% fat-free Greek yogurt
- 64g (~2 scoops) **HTLT Vanilla PB Whey Protein Powder** (or whey of choice)
- 30g (~2.3 tbsp) powdered peanut butter
- 20g (~2½ tbsp) **FibrO IMO Powder** (or IMO of choice)
- 30g (~2 tbsp) low-calorie maple syrup
- 1.5g (~½ tsp) guar gum
- 1g salt (to taste)

Directions

1. Add all the ingredients into a blender and blend mixture for 2 minutes at high speed. Scrape the sides with a spatula and push the mixture down.
2. Blend it for 3 minutes on high speed, scrape the sides again with the spatula, blend it for 2 more minutes, and repeat the scraping process 1 more time.
3. Once your Avocado Pea-NOT butter is lighter in color, thick, and glossy, it is ready to serve.
4. Allow to cool in the fridge for best results. Refrigerate and eat within 3-5 days.

Easy

This is a scrumptious and very high protein taco dip! It is an absolutely delicious treat and best served with lower calories baked tortilla chips or crackers for dipping.

Ingredients

Makes 4 Servings

- 390g veggie ground meat of choice
- 24g (~1 package) taco seasoning
- 420g (~1½ cups) salsa
- 152g (8 slices) fat-free cheese or shredded equivalent
- 125g (½ serving) onion
- 5g (~1 tsp) minced garlic

Nutrition	Entire Batch	Per Serving
Calories	945	235
Fat (g)	4	1
Carbs (g)	110	28
Fiber (g)	35	9
Protein (g)	112	28

Directions

1. Preheat the oven to 350°F (~175°C).
2. Cut the onions into small pieces and add to a lightly sprayed frying pan, and sauté at a medium-high heat until lightly browned. Add the minced garlic to the pan and mix both together for 1 minute.
3. Lower the heat to low-medium, add the veggie meat to the onion mixture and heat for 5 minutes. Continuously stir the mixture.
4. Add salsa and let sit for 5 minutes on low/medium temperature.
5. Mix in the seasoning, add the cheese to the mixture, and remove from heat.
6. Place the mixture into an oven safe dish (9"x 9" casserole dish).
7. Place in the oven for ~10 minutes or until the cheese has melted.
8. Remove from the oven and enjoy!

Note:

- To make this recipe vegan, use your favorite vegan cheese, but remember - vegan cheese is higher in calories and lower in protein.
- Alternatively mix ½ the cheese in during step 5, and top with the other ½ in step 7 (10 minutes before removing it from the oven) for a cheesier looking dish.

Quick & Easy Chips

1. Preheat oven to 350°F (~175°C).
2. Lay out 1 Joseph's Lavash Bread (or similar low-calorie wrap).
3. Slice it into pieces with a pizza cutter, knife, etc.
4. Cover a baking sheet with aluminum foil.
5. Spread out the chips evenly.
6. Bake for ~3-4 minutes (be very careful as you do NOT want to burn these).
7. Remove from oven to check chips. If they aren't crispy enough, put them in for another minute and monitor them closely until done.

Note:

- *Vegan Cheese Sauce (page 88) is another great addition to this wrap.*
- *Experiment with various veggies and make it as large as possible for maximum satiety!*
- *Add seasoning to the pan while cooking the burger/veggies if desired.*

Directions

1. Prepare a Vegan Black Bean Burger (*page 144*) and the Gregamame Dip (*page 87*).
2. Heat a pan over medium heat, and spray with cooking spray.
3. Add the Vegan Black Bean Burger to the pan along with the bell peppers, onions, mushrooms.
4. Using a spatula, chop up the burger and mix everything together.
5. Cook for approximately ~5-10 minutes, or until the veggies are tender.
6. Lay out one Joseph's Lavash Bread onto a plate and add a layer of romaine lettuce onto the wrap.
7. Spread the Gregamame Dip onto the lettuce.
8. Add the burger pieces/veggies from the pan onto the lettuce, and top it off with the light mayo, spicy mustard, and sugar-free BBQ sauce (or equivalent dressings of your choice).
9. Top with as much spinach as you can fit in the wrap.
10. Microwave your wrap for 30 seconds, fold in half, and eat over a plate, as you will likely have a salad leftover at the end of your meal.

Note:

- It's important to leave a small space between each vegetable for air and heat to circulate (this cooks them evenly).
- If you decide to add other vegetables of your choice, note that it's important to use vegetables with similar cooking times.
- For extra taste, marinate the skewers overnight.

Directions

1. Soak the wood skewers in cold water for at least 15 minutes.
2. Chop the vegetables and tempeh into large pieces.
3. Place all the vegetables and tempeh into a big bowl. Spray with cooking spray and season with salt, pepper, and garlic powder, and fold in the seasoning. Set aside.
4. In a medium bowl, add crushed garlic, balsamic vinegar, and soy sauce.
5. Begin making the skewers by sliding a mushroom to the end of each skewer.
6. Alternate the different coloured vegetables and tempeh onto the skewers, leaving some space between them. End each skewer with a mushroom.
7. Place the skewers onto a tray and pour the balsamic-soy mixture over them. Using a basting brush, spread the extra liquid over the skewers.
8. Preheat the grill over medium heat. Once it is hot, add the skewers and grill for ~5-8 minutes per side or until the veggies have softened and browned around the edges.

- To make extra anabolic, use a plant-based protein nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).
- If you have higher blood pressure, I recommend avoiding salt.

Directions

1. Squash Prep:
 - Slice the spaghetti squash in half lengthwise, and clean out the seeds/ pulp.
 - Place the squash skin up in a microwave-safe bowl. Add ~2 cm of water around the squash and microwave for 10 minutes on high.
2. Using a fork, scrape out the inside of the squash ("the noodles") into a bowl and discard the skin. Set aside.
3. Wash the broccoli and cut into bite-sized pieces. Steam the broccoli until it's soft to the touch but still firm on the inside. Set aside.
4. Put the hemp hearts in a small bowl and soak them in warm/hot water for ~5 minutes. Strain the water.
5. To make the "cheese sauce", add the cashew milk, guar gum, lemon juice, nutritional yeast, garlic powder, onion powder, paprika, hemp hearts, salt, and pepper to a blender. Blend on high for 1 minute.
6. Warm a pan over medium heat and spray with cooking spray.
7. Add the spaghetti squash to the pan and heat for a few minutes.
8. From the blender, pour the "cheese sauce" over the spaghetti squash noodles, and gently mix until the sauce is well blended with the "noodles".
9. Fold the broccoli into the mixture and warm to desired temperature.
10. Serve on a plate with a high protein vegan side of your choice or on its own.

Cabbage Soup is a savory soup made with a variety of vegetables and spices. It's great for weight loss because it's low-calorie dense and hearty. It's also inexpensive and easy to make!

Ingredients

Makes 4 Servings

- 250g (1 serving) carrots
- 125g (½ serving) onions
- 398g canned sliced/stewed tomatoes
- 250g cabbage
- 15g (½ packet) dried onion soup
- 270g tomato juice
- 150g peppers
- 150g celery
- 198g vegetable broth
- 390g veggie ground meat
- 720g (~3 cups) water
- Black pepper (to taste)

Directions

1. Chop all the vegetables to desired thickness (the thicker the vegetables the longer they will take to soften).
2. Add the carrots, onion, diced tomatoes, cabbage, peppers, and celery in a large pot.
3. Add the onion soup mix, tomato juice, broth, veggie ground and enough water to cover the vegetables (~720 g/ 3 cups).
4. Bring the pot to a boil. *(Optional: at this point, I add 1 tbsp of guar gum and 2 cups of warm water to the pot. This adds more volume and thickens the recipe).*
5. Bring to a boil once again, reduce heat to a minimum and allow to simmer for an hour or longer until the vegetables are tender, while stirring occasionally.
6. Remove from heat, allow to cool slightly, and eat at any time, or freeze for later use.

Note:

- I use a toaster oven for these!
- Eat these immediately as they are not as good when eaten as leftovers.
- I use 110 calorie buns.
- If your pockets won't seal properly, dip your fingers into some egg whites to help create a better seal.
- You can add more or less cheese/pepperoni based on your personal taste (just remember to adjust macros!).

Directions

1. Start by placing parchment paper onto a baking sheet, spray with cooking spray, and set aside. Preheat the oven to 350°F (~175°C).
2. Place the egg whites in a flat surface bowl.
3. Cut all 3 hamburger buns in half if not pre-cut.
4. Quickly dip (~1 second) each half of the hamburger bun on both sides in egg whites and place on a plate with the inside part of the bun facing up.
5. Using a fork/spoon, scrape/hollow out about 5g of the top half of each bun (this will hold the filling).
6. Preheat the veggie pepperoni in the microwave for 20 seconds.
7. Add a layer of 5 small veggie pepperoni slices onto each top half of the buns (into the indentation).
8. Add 19g/1 slice of cheese on top of the veggie pepperoni for each bun.
9. Add 1 tbsp of the sauce on top of each of the 3 pockets.
10. Add the remaining 5 small veggie pepperoni slices onto each top half of the buns.
11. Place the bottom half of the bun on top and seal the buns by slightly pinching around the edges to finish the pieces together, forming the pizza pockets.
12. Flip the pockets (top side up) and place them on the baking sheet with parchment paper to prevent sticking.
13. Bake at 350°F (~175°C) for 10 minutes or until golden brown.
14. Remove from the oven and let sit for about 5 minutes! (Be careful, they may be very hot!).

You can simply never go wrong with a quesadilla! Have it however the heck you want - with beef, chicken, turkey, or whatever. It doesn't matter! The point is, it's going to be delicious, and it's going to be friendly to your low calorie-dense lifestyle without having to sacrifice taste.

Ingredients

Makes 1 Quesadilla

- 60g chicken breast, boneless and skinless OR 50g extra-lean ground turkey OR 40g extra-lean ground beef/steak (measured cooked)
- 2 low-carb high-fiber tortillas (70 calories per tortilla)
- 2 slices fat-free cheese or 38g fat-free shredded cheese (60 calories)
- ½ serving veggies (peppers/ onions/jalapenos/mushrooms) (see page 210)
- 40g (3 tbsp) your favorite salsa
- 30g (2 tbsp) fat-free sour cream
- Salt & pepper to taste

Directions

1. Prep: grill chicken breast/ground turkey/ground beef/steak/etc. with salt & pepper to taste and refrigerate until you are ready to make your quesadilla.
2. Preheat the oven to 375°F (190°C). You may also pre-heat a toaster oven if you have that available in your kitchen.
3. Add aluminum foil to a baking sheet and spray with cooking spray. Lay one tortilla flat on the piece of aluminum foil. Spread the veggies, cheese, and meat/poultry evenly on top of the tortilla. Add the 2nd tortilla on top, like a sandwich.
4. For the light version, you will want to fold the tortilla, so make sure the ingredients only take up half of the tortilla.
5. Place the quesadilla in the oven or toaster oven for 5-10 minutes, or until it has reached desired warmth and doneness.
6. Remove the quesadilla from the oven/toaster oven and place on a plate. Slice like a pizza so you can easily eat it with your hands. Serve with fat-free sour cream and salsa for dipping sauce.

Directions

1. In a saucepan, mix the cold milk and the cornstarch.
2. Over low heat, warm the milk, slowly bring to boil, and whisk constantly to avoid any clumps. Once the sauce has thickened up, add the parmesan and cheddar, and stir well.
3. Add nutmeg, garlic, onion powder, paprika, salt, and pepper and mix until everything is fully incorporated. Remove from the heat and set aside.
4. Remove the nuPasta from the package and soak in water for 15 minutes, chop in little pieces, and save for later.
5. Add the 2 L of water into a pot. Add 2 tbsp salt and bring it to a boil.
6. Boil the macaroni for 11 minutes approximately or as the package indicates, drain well, and lay aside.
7. Over low heat and in the same pot you cooked the macaroni, add 1 tbsp of light margarine. Once it is melted add the onion flakes and let them brown up. Add the sour cream and nutritional yeast and mix with a whisk. Lastly, mix in the cheese sauce.
8. Mix in together with the pasta and enjoy!

Protein “Chips and Guacamole”

Vegetarian

Do you like dining at Mexican restaurants with the unlimited salsa, chips, and guacamole, but also like your gains? Look no further than this modified version of chips and guacamole!

Ingredients

Makes 4 Servings

- 1 Flatout Protein UP Flatbread or protein flatbread of choice (110 calories)

Guacamole

- 50g avocado
- 25g tomato
- 25g onions
- 25g jalapenos
- 1 tbsp fresh lime juice
- Salt and pepper

Nutrition Entire Batch

Calories 210

Fat (g) 11

Carbs (g) 28

Fiber (g) 8

Protein (g) 12

Tasty tip: For a spicy kick top with pepper flakes.

Prep tip: For an extra crispy chip, lightly spray the flatbread with cooking spray before baking. Keep an eye on your wrap because they burn quickly!

Directions

1. Slice an avocado into cubes. Dice tomatoes, onion, and jalapenos. Place all in one bowl and mash with a spoon or a pestle. Add lime, salt, and pepper to taste.
2. Slice your flatbread into tortilla chip-sized squares. Place chips on a toaster oven baking sheet. Bake in a toaster oven for 3 minutes until the pieces are crispy like tortilla chips.
3. Serve together as an appetizer or a delicious healthy snack.

Smoked Salmon Pinwheels

I normally do not like fish in a wrap, but I actually love these! And they help me get in my healthy omega-3 fats from the salmon. So if you think you don't like fish, give this a try and see for yourself.

Ingredients

Makes 1 Serving

- 60g (~2 oz) cold smoked salmon
- 1 low-carb tortilla wrap (Mission Carb Balance Tortilla, 70 calories)
- 50g frozen spinach, thawed and drained
- 30g red onion, shaved
- 10g capers
- 15g (1 tbsp) low-fat cream cheese (up to 35 calories)
- 1g (~½ tsp) black pepper
- Optional: 2 tsp fresh dill, chopped

Total Per Serving

Calories 200

Fat (g) 8

Carbs (g) 18

Fiber (g) 10

Protein (g) 18

Note: The calories in smoked salmon will vary depending on the fat content. I eat smoked salmon because it is a source of healthy fats. Make sure to check the labels. This is a whole meal for me.

Directions

1. Lay the tortilla wrap out flat and spread the cream cheese evenly to cover it. Next, cover the whole tortilla with the strips of smoked salmon. Sprinkle the black pepper, capers and dill on the smoked salmon evenly.
2. Spread the shredded spinach and the onions out on top of everything evenly so it covers the other ingredients. Start at the bottom of the tortilla and roll it up tightly all the way.
3. Use a knife to cut the rollup in sections about 2 inches (5 centimeters) thick. Each section should look like a pinwheel from the side if you rolled it correctly.
4. Transfer the pinwheels to a plate, serve and enjoy!

Vegan Balls

An easy way to step away from the carnivorous diet, these balls are super tasty and full of protein.

Ingredients

Makes 2 Servings

Balls

- 27g (½ cup) corn flake crumbs
- 24g (~½ cup) textured vegetable protein (TVP)
- 80g (~½ cup) unsweetened cashew milk
- 8g fresh parsley
- 30g onion
- 6g (~1 tbsp) Italian seasoning
- 300g veggie ground meat
- 2g (⅔ tsp approx) guar gum

Sauce

- 125g (~½ cup) water
- 3g (~½ cube) vegetable bouillon cubes
- 18g (~1 tbsp) vegan Worcestershire sauce

Nutrition	Per Batch	Serving Without Sauce	Serving With Sauce
Calories	655	330	350
Fat (g)	8	4	4
Carbs (g)	67	34	38
Fiber (g)	20	10	10
Protein (g)	79	40	40

Note: To make extra anabolic, use a plant-based protein nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).

Prep tip: You can choose to make more smaller balls, or less larger balls, since there are no rules! I personally like to make 6 balls per serving.

Directions

Balls:

1. Preheat the oven to 400°F (205°C) and prepare a baking sheet with parchment paper.
2. In a small container, whisk the cashew milk and guar gum together until clumps are gone. Set aside.
3. In a small coffee grinder/blender, grind the TVP until it turns into a flour-like consistency, and set aside.
4. Finely chop the onion and the parsley and place it in a large bowl. Add the veggie ground meat, the powdered TVP, and Italian seasoning. Mix well and set aside.
5. Add the corn flake crumbs to the cashew milk and mix well. Pour the mixture over vegan meat and use your hands to mix/knead the ingredients together.
6. Measure a tablespoon of the mixture and form it into a ball.
7. Repeat step 6 until there is no mixture left (14 balls about 1" in diameter).
8. Place all the balls onto the baking sheet, and bake for 10-15 minutes.

Sauce (Optional):

9. In a small pot, place the water, soup mix, and vegan Worcestershire. Boil for 5 minutes on high and stir constantly. Set aside to cool.
10. Once the balls are ready, plate them and pour the sauce on top (or use it on the side and dip).

- 5g (~2 tsp) smoked paprika
- 0.5g (~ ¼ tsp) chilli powder
- 1g pepper
- 100g unsweetened almond milk
- 2g (~½ tsp) sea salt
- 30g (2 tbsp) sugar-free BBQ sauce

Breading

- 30g panko crumbs
- 35g (~½ cup) textured vegetable protein (TVP)
- 7g (~2 tsp) nutritional yeast

Calories	515	260
Fat (g)	7	3
Carbs (g)	75	38
Fiber (g)	32	9
Protein (g)	42	12

Prep tip:

- You can also use an air fryer instead of the oven. Use the air crisp mode for 10-15 minutes.
- To make extra anabolic, use a plant-based protein nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).

Tasty tip: For vegetarians this goes well with low-calorie sour cream and celery. For vegans, low-calorie ketchup or BBQ sauces make for a great dip.

Directions

1. Preheat the oven 350°F (~175°C). Wash and break the cauliflower into florets/pieces of different sizes.
2. In a medium-sized bowl, combine the dry batter ingredients, then add the unsweetened almond milk and the BBQ sauce.
3. Whisk (or use a fork) out all the lumps until the mixture is thick and smooth.
4. In a blender, food processor or spice grinder, blend the TVP until it is a semi fine powder.
5. In another medium-sized bowl add all the breading ingredients (including the ground TVP) and set aside.
6. Add the cauliflower florets into the bowl of the batter mixture and coat them with your clean hands or a spatula (make sure that the florets are fully covered, even in between the stems).
7. Pick florets one by one, and dip them into the breading mixture until they are evenly coated.
8. Place all the florets on a baking tray and bake for 15 minutes. Flip them over to the other side and bake them for 10 minutes.
9. Remove from the oven and transfer to a plate. Serve with a low-calorie dip of your choice.

Maple Podado Circles

Sweet potatoes taken to the next level with both a CRUNCH, and a Canadian twist of maple syrup.

Ingredients

Makes 2 Servings

- 450g sweet potatoes (peeled and cut into ~¼ inch thick circles)
- 60g (~¼ cup) low-calorie maple syrup
- 36g (½ cup) textured vegetable protein (TVP)
- Salt (to taste)
- Pepper (to taste)

Calories	515	255
Fat (g)	0.4	0.2
Carbs (g)	101	51
Fiber (g)	19	10
Protein (g)	25	12

Prep tip:

- To save time don't peel the potatoes.
- Cooking time may vary depending on the oven. If they are not ready in the time listed, cook them for an additional 5 minutes.
- You can also cook these in an air fryer using the same prep method (times will vary).

Directions

1. Lay aluminum foil on a baking sheet and spray lightly with cooking spray.
2. Peel and cut the sweet potatoes into ~¼ inch thick circles.
3. Place the sweet potato pieces on the baking sheet.
4. Pour a few drops (~½ tsp) of low-calorie maple syrup on the center of each potato circle (you can use as much or as little as you like).
5. Top the pieces with ½ of the TVP (18 g) and spread evenly with a fork.
6. Put the tray in the oven for 20 minutes at 400°F (~205°C).
7. Remove the potatoes from the oven, flip them over and repeat step 4 with the remaining half of the TVP (18 g).
8. Place the potatoes back in the oven and cook for ~20 minutes (or until golden brown).
9. Place on a plate and enjoy as is or with ketchup, low-calorie maple syrup, or side of choice!

These are one of my favorite additions to a meal. They're light and crispy and instantly add protein to any dish. Give them a try on burgers, wraps, sandwiches and more!

Ingredients

Makes 3 Servings

- 375g (1½ serving) spanish onion
- 240g (1 cup) unsweetened almond milk
- 48g (~⅔ cup) crumbled textured vegetable protein (TVP)
- Black pepper (to taste)
- Salt (to taste)

Tasty tip:

- Can be added to any casserole, sandwich, or dish for extra taste and crunch!
- To make extra anabolic, use a plant-based protein nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).

Directions

1. Preheat oven to 400°F (~205°C).
2. Remove the peel of the onion and slice the onion into rings to your desired thickness.
3. Combine onions and almond milk in a container or bowl and let soak for 10-15 minutes. Drain and return onions to the bowl.
4. Grind the TVP into a powder-like consistency (using a coffee/spice grinder). Combine the ground TVP, salt and pepper.
5. Sprinkle the onions with the TVP mixture and toss to coat the onions.
6. Lightly spray the baking sheet and transfer the onions, spreading evenly. Bake, stirring once or twice (every 10-15 mins), until tender and crispy, about 25-30 minutes.
7. Remove from the oven, let cool, and enjoy!

Blooming Onion

Ah, the blooming onion. A very popular appetizer option among many restaurants. The problem? Regular blooming onions are breaded and fried in oil! My new anabolic blooming onion is loaded with protein and has all the crispy crunch you love, without the extra calories!

Ingredients

Makes 1 Serving

- 500g Spanish onion (250g per onion)
- 120g (½ cup) egg whites
- 5g (~1 clove) minced garlic
- 1.5g (~1 tsp) dried onion flakes
- 1.5g (~½ tsp) garlic powder
- 2g (~1 tsp) smoked paprika
- 16g (~3.5 tbsp) textured vegetable protein (TVP)

Fat (g) 1

Carbs (g) 58

Fiber (g) 13

Protein (g) 28

Note: Some great dipping options are no sugar added ketchup or sugar-free BBQ sauce.

Directions

1. Preheat the oven to 375°F (190°C).
2. Start by cutting the onions. Remove the outer peels. Stand your onion stem side up.
3. Slice your onion in half without cutting through the base. Turn the onion a quarter turn and repeat this step so the onion is cut into quarters and the base is intact.
4. Mix the egg whites and spices all in a bowl, excluding the TVP. Flip the onion over and submerge the onion in the egg white mixture.
5. Place the onion on the parchment paper “root down”, so the onion will unfold while cooking. Bake for 40 minutes or until golden brown.
6. After 20 minutes brush more of the egg white over the onion and continue to bake. You can do this a few times while the onion is cooking to add more protein to the onion.
7. 10 minutes before you feel the onion is ready, sprinkle the TVP on top and cook for 10 more minutes.
8. Remove from the oven and transfer to a plate. Enjoy with dipping sauce.

An amazing, high protein option featured in my Power 13 cookbook!

Ingredients

Makes 4 Servings

- 400g (1 serving) eggplant (weighed before drying)
- 80g (½ cup) egg whites
- 80g (~1¼ cups) textured vegetable protein (TVP)
- ~1 tbsp spices of choice (I personally like garlic, pepper, salt, garlic plus & vegetable spices)

Fat (g)	1	0.2
Carbs (g)	48	12
Fiber (g)	27	7
Protein (g)	53	13

Note:

- When soaking the eggplant circles in the egg whites, the longer you leave them in, the better they'll be!
- The texture of the eggplant when ready should be crispy on the outside and softer on the inside.

Directions

1. Preheat the oven to 400°F (205°C).
2. Cut the eggplant widthwise into ½ inch thick circles (top and bottom can be sliced off and thrown out).
3. Fill a big bowl with water and a large amount of salt. The water should be salty like the ocean! Add your eggplant circles into the water, fully submerging them. Let soak for 5 minutes. Remove the eggplant circles and rinse well with cold water.
4. Line a colander with paper towel. Place the damp eggplant into the colander to dry and set aside.
5. Place the TVP into a blender and grind for 10 seconds. Mix/stir the TVP and spices together in a bowl with a fork.
6. Place parchment paper or aluminum foil on a baking sheet (if using aluminum foil make sure to spray it with cooking spray).
7. Poke the eggplant circles with a fork. Add the egg whites and eggplant into a sealable container and shake them until they've been coated evenly, then set aside.
8. Dip the eggplant circles, covered in the egg whites, into the TVP/spices mixture, and ensure both sides are coated (just like breading chicken). Lay onto the baking sheet.
9. Place on the middle rack of the oven and bake at 400°F (205°C) for 40 minutes. Make sure to check after about 30 minutes. Flip the eggplant halfway through (like cooking French fries).
10. Remove from the oven and let cool for a few minutes. Enjoy!

Directions

1. OPTIONAL: Prep cauliflower rice (*either see the recipe in this book on page 134 or purchase pre-cooked cauliflower rice.*)
2. Pre-heat the oven to 400°F (~205°C).
3. In a bowl mix flour, guar/xanthan gum, garlic powder, salt, oregano, and basil.
4. Add in the Greek yogurt and fold together to form a ball.
5. In another bowl combine cooked cauliflower rice and egg whites. Mix well.
6. Add the cauliflower mixture to the flour mixture and combine well. You can use your hands or a hand blender.
7. Let stand at room temperature for 20 minutes.
8. Divide the mixture into six 150g portions (~7 inch crusts).
9. Line a baking sheet with parchment paper. Stretch one portion of the mixture into a 'circle'. The size will differ depending on how thick or thin you want your crust. You can fit multiple crusts on one baking sheet, leaving a small amount of space between them.
10. Bake at 400°F (~205°C) for 30-35 minutes or until lightly browned.
11. Remove from the oven and let cool for a few minutes. Repeat steps 9 and 10 until all crusts are baked.

Pizza for the soul. Yes, I do think pineapple belongs on pizza! Perfect high protein pizza variation for keeping up with your super tasty low-calorie meals.

Ingredients

Makes 4 Mini Pizzas

- 1000g extra lean chicken breast
- 120g (~½ cup) egg whites
- 30g marble cheddar
- 1.5g (~¼ tsp) garlic paste
- 0.7g (~½ tsp) oregano
- 0.4g (~½ tsp) pepper
- 1.7g (~¼ tsp) salt

Toppings

- 100g pizza sauce
- 50g fresh pineapple
- 30g turkey bacon
- 60g light mozzarella
- Fresh basil

Directions

1. Preheat the oven 450°F (230°C)
2. Cut the chicken into pieces and place in the food processor.
3. Add the spices, cheese, and egg whites to the food processor. Blend for approximately 2 minutes, until the chicken has broken down and the cheese and spices are completely blended.
4. Prepare a baking sheet with parchment paper. Divide the mixture into 4 portions and place each portion on the parchment paper.
5. Dampen your hands with tap water. Push the mixture down, creating a nice thin and circular-shaped crust.
6. Place the tray into the oven and cook them for 15 minutes or until the chicken is fully cooked.
7. Take the pizza crust out of the oven and top it with your favorite pizza toppings. Don't forget the pineapple!
8. Place the pizzas back into the oven and cook them for 10 more minutes or until the cheese looks nice and crispy.
9. Serve with fresh basil and enjoy.

Directions

1. Pre-heat the oven to 400°F (204°C). Spray a 9 x 13 inch (22 cm x 33 cm) casserole dish with cooking spray.
2. Boil Palmini lasagna sheets for about 5 minutes to soften them.
3. Sauté garlic and onions in a pan over medium-high heat until golden brown. Remove from the burner, transfer into a bowl, and set aside.
4. In the same pan, cook the lean ground turkey until fully cooked. When fully cooked, remove from the pan, drain/rinse out any excess fat, and add to the bowl of onions and garlic. Add pasta sauce along with 60ml (¼ cup) water to the turkey mixture and mix well.
5. Mix or blend 0% fat cottage cheese and spinach (thawed and drained).
6. Spread ¼ cup of the turkey sauce on the bottom of the casserole dish (this is a very thin layer, it won't cover the entire dish).
 - A. Place about 12 Palmini sheets over the sauce.
 - B. Lay half of the zucchini on top of the Palmini lasagna sheets.
 - C. Spread half of the cottage cheese/spinach mix on top of the zucchini.
 - D. Spread ⅓ of the pasta sauce mix over the cottage cheese/spinach.
 - E. Repeat steps A-D one more timeLay the last 12 Palmini lasagna sheets and spread the remaining pasta sauce on them, and top with 8 fat-free cheese slices.
7. Spray the underside of tin foil with cooking spray (prevents sticking to the cheese) and cover the lasagna. Be sure to "tent" the foil so that there's space between the cheese and the foil (you don't want the cheese to stick to the foil when baking).
8. After 40 minutes, remove the foil and bake for another 10 minutes (to brown the cheese).
9. Remove the lasagna from the oven and let cool for 5 minutes before cutting and serving.

Note: If you can't purchase Yves Ground Round in your country, go for a similar product local to you. US customers may opt for Gardein products. Always be sure to re-calculate the calorie information if you opt for a different product.

Directions

1. Pre-heat the oven to 400°F (~205°C). Spray a 9 x 13 inch (~22 cm x 33 cm) casserole dish with cooking spray.
2. Boil Palmini lasagna sheets for about 5 minutes to soften them.
3. Sauté garlic and onions in a pan over medium-high heat until golden brown. Remove from the burner, transfer into a bowl, and set aside.
4. In a separate bowl, mix OR blend 0% fat cottage cheese and spinach (thawed and drained).
5. Spread ¼ cup of the veggie meat sauce on the bottom of the casserole dish (this is a very thin layer, it won't cover the entire dish).
 - A. Place about 12 Palmini sheets over the sauce.
 - B. Lay half of the zucchini on top of the Palmini lasagna sheets.
 - C. Spread half of the cottage cheese/spinach mix on top of the zucchini.
 - D. Spread a third of the pasta sauce mix over the cottage cheese/spinach.
 - E. Repeat steps A-D one more time.
6. Lay the last 12 Palmini lasagna sheets and spread the remaining pasta sauce on them, and top with 8 fat-free cheese slices.

Note: The cooking time will vary depending on the thickness of the salmon. If you have a thinner cut of salmon (around 1 inch) then check several times while baking to ensure the salmon does not overcook.

Directions

1. Preheat the oven to 450°F (~230°C).
2. Prepare a baking sheet with parchment paper and add the asparagus. Lightly coat the asparagus with cooking spray, then sprinkle minced garlic, onions, lemon zest, and salt & pepper and shake the baking sheet to mix them up.
3. Lay a tin foil sheet flat on the counter and place the salmon filet skin down on the sheet. Sprinkle and rub the dill and salt & pepper onto the filet. Arrange lemon slices on top of the salmon.
4. Gently fold the foil around and on top of the filet until completely sealed.
5. Transfer the filet onto the baking sheet, making sure the asparagus is not underneath but on each side of the filet.
6. Bake the salmon for 15-20 minutes or until the salmon is cooked through at its thickest part.
7. Remove the baking sheet from the oven. Carefully open the foil being aware of the hot steam.
8. Use tongs to portion the asparagus onto plates. Then with a knife, cut the filet into 6 servings. With a spatula, place each portion of filet onto the plate beside the asparagus. Arrange the lemon slices as desired & enjoy!

Ingredients

Makes 4 Servings

- 300g (11oz) chicken breast, boneless and skinless, cut in 1-inch cubes
- 700g tomato, diced
- 200g yellow onion
- 200g celery, diced
- 200g white mushrooms, sliced
- 4 garlic cloves, minced
- 500g (~500 ml) chicken broth
- 156g (1 small can $\frac{2}{3}$ cup) tomato paste
- Salt and pepper to taste

Directions

1. Heat a nonstick skillet over medium-high heat. Spray with cooking spray and add the chicken breast. Sear the chicken on all sides.
2. Add the chicken broth to the skillet with all the remaining ingredients and stir well.
3. Bring the mixture to a rolling boil, then cover with a lid and reduce to a low simmer. Continue to cook on medium-low heat for 20 minutes. After 20 minutes, remove the lid and raise the temperature to medium-high. Cook for 5 minutes to reduce the liquid in the skillet and form a thick sauce. You want the sauce to be slightly thick. The dish is supposed to be almost like a stew.
4. Remove from the heat and transfer the chicken cacciatore to a bowl. Garnish with fresh chopped parsley, serve and enjoy!

Prep tip:

- The air fryer is my favorite method for reheating these, because they can re-crisp again. Air fry them at 350°C for 5 minutes, flipping halfway through.
- The microwave is my least favorite way for reheating since they get a soft texture.

Tasty tip: I really like eating these nuggets with a side of Spaghetti N' Cheese (see page 101).

Directions

1. In a coffee grinder add the TVP and onion salt, and blend until it is fully broken down. Set aside in a container.
2. Add the rest of the ingredients into the food processor and blend it for about 2 minutes.
3. Prepare a baking sheet or the air fryer basket.
4. Dampen your hands under tap water and divide the mixture into 8 equal parts. Shape each part into a nugget.
5. One by one, place a nugget into the container of TVP, coat on all sides, and place on the sheet or in the basket.
6. Air fry or bake the nuggets for 10-15 minutes at 360°C, or until golden brown.
7. Pair with your favorite potato recipe and sugar-free ketchup. Enjoy!

Note: You can use any low-fat white fish if you don't have access to tilapia. In Canada, you can make this recipe with haddock or cod. Use whatever white fish is local to your area.

Directions

1. Heat a skillet over medium-high heat. Spray with cooking spray. Add all of the vegetables, and toss with salt and pepper. Once the vegetables are mostly cooked, add the shrimp and sauté until mostly cooked.
2. Pre-heat the oven to 400°F (~205°C). Spray a baking sheet with cooking spray, and then lay the tilapia flat on the baking sheet.
3. Pour lemon juice and zest over the fillets.
4. Transfer the sautéed vegetables and shrimp to the top of the tilapia fillets.
5. Place all in the oven for 8-12 minutes, or until the tilapia is fully cooked.
6. Remove the fish and vegetables from the oven, and plate and serve. Enjoy!

2. In a coffee grinder add the TVP and Whisps, and blend until it is fully broken down. Transfer to a shallow container or a food tray.
3. Pre-heat the air fryer to 400°F and prepare an air fryer tray.
4. To bread the fish, place the pieces one by one into the dry mixture, carefully flip it over and toss again. Shake off any excess and place in the air fryer.
5. Air fry the fish for 15 minutes.
6. Remove from the air fryer, pair with your favorite side, and serve.

Prep tip:

- *The air fryer is my favorite method for cooking these but there are NO RULES! If you don't have access to a fryer, bake them at 380°F for 20 minutes, flipping them halfway through.*
- *Use a measuring cup or a spoon to pound the breading onto the fish.*
- *When I am dieting hardcore, I like replacing the Whisps with 60g of Shake n Bake, which decreases the calories.*

Tasty tip: I love pairing this recipe with a side of Dill Weed Dip (see page 95) and Blooming Onion (see page 114).

Directions

1. Preheat the oven to 375°F.
2. Place the red bell peppers, spinach, garlic, and water in the pan and cook over medium-high heat.
3. Steam the veggies until the water has evaporated, then turn off the heat.
4. Slice the chicken breast horizontally in half, creating an opening, but do not cut all the way through. Season the chicken on both sides with salt, pepper and Italian seasoning to taste.
5. Lay the chicken on a flat surface with the prosciutto on the bottom and chicken on the top.
6. Stuff the opening of the chicken with the steamed veggies.
7. Carefully fold the prosciutto over the stuffed chicken to seal everything inside. Place on a baking sheet open side down. Repeat this until you have all of your chicken stuffed, folded, and on the baking sheet.
8. Bake in the oven for 20 minutes.
9. Once the chicken is fully cooked remove from the oven, place on a dish, and eat slower then last time!!

Note: I prefer my meatballs smaller so i'll make 23 small balls from this batch, but you might like bigger balls, so make fewer bigger balls if you like.

Directions

1. Preheat the oven to 400°F (~205°C). In a large bowl, add the ground turkey, breadcrumbs, and spices. Mix together thoroughly to make sure the turkey meat gets all the seasonings.
2. Using an ice cream scoop, portion out the meatball mixture as desired. Form the balls in your hands by rolling them back and forth. Place them on a baking sheet tray that has been coated with cooking spray.
3. Bake the meatballs in the oven for 20 minutes or until they are cooked all the way through, or have an internal temperature of 165°F (~74°C). Remove them from the oven and set aside to rest.
4. In a skillet, add the beef broth and heat over high heat. While the broth is heating up, mix the cornstarch and water together in a small bowl.
5. Once the beef broth is boiling, add the cornstarch/water mixture and whisk constantly until the sauce thickens slightly.
6. Reduce the heat to a low simmer and add the meatballs.
7. Once the sauce has thickened and the meatballs are covered in the gravy, transfer to a serving bowl and garnish with fresh chopped parsley. Serve with toothpicks so people can eat one at a time. Enjoy!

Note:

- You can purchase either frozen or fresh cauliflower rice from many stores. If you're lazy, you can just use those!!
- You can use this instead of rice or potatoes in any meal for more fiber, less calories, and more protein than last time!

Directions

1. Bring a large pot of water to a boil. Add the cauliflower and cook until it is soft enough to stick a fork through.
2. Remove the cauliflower from the pot and strain in a collander to dry. Let stand for about 10 minutes.
3. Place the cauliflower in a blender and blend on high until it is shredded into little pieces.
4. Once cool to touch, wrap the cauliflower in cheesecloth, twist and squeeze out any additional liquid. Repeat this process until there is no more moisture coming off of the cloth.

Difficulty
Medium

Lower in calories and higher in protein than regular Pad Thai, so you can eat more than last time!

Ingredients

Makes 2 Servings

- 420g NuPasta - Fettucini
- 200g (~½ serving) bell peppers, red, orange, yellow
- 125g carrots, shredded
- 125g red onion
- 100g snow peas
- 30g bean sprouts
- 170g tofu, soft

Sauce Ingredients:

- 9g (~1 tbsp) garlic powder
- 6g (~1 tbsp) onion powder
- 6g (~1 tbsp) ground ginger
- 28g (¼ cup) plant-based egg (I used Vegg Power Scramble)
- 24g (4 tbsp) powdered peanut butter (PB2)
- 30g (2 tbsp) water
- ⅓ cup (80g) vegetable stock
- 30g (2 tbsp) rice wine vinegar
- 15g (1 tbsp) fresh lime juice
- 45g (3 tbsp) low-calorie maple syrup
- 30g (2 tbsp) soy sauce
- 15g (~1 tbsp) minced garlic
- 12g (1 tbsp) minced ginger

Directions

1. Cut the onions and bell peppers into thin slices.
2. Spray a large skillet/wok and bring it to a medium heat.
3. Add the onions to the skillet/wok and cook until tender. Add the remaining veggies and let cook until all vegetables are soft to the touch.
4. Cut the tofu into pieces (size of choice).
5. Add the tofu and strained NuPasta to the skillet/wok and fold veggies into the pasta (do not mix vigorously as that will break the pasta).
6. Lower the heat to medium-low and continue cooking.
7. In a separate bowl mix together all the ingredients for the sauce, and pour over the vegetables in the skillet/wok. Fold the veggies, sauce and pasta together.
8. Let marinate in the skillet/wok for 10 minutes (or eat right away if you would like).

Note:

- If you're missing 1 or 2 liquid ingredients, don't worry! The recipe will still taste great. There are no rules in the anabolic kitchen. Feel free to make small adjustments to portion sizes and ingredients.
- For more volume, double the recipe and use 840g of NuPasta.

Whether you're relaxing and watching your favorite show, or eating as a family on a cold winter day, this hearty bean chili is sure to satisfy!

Ingredients

Makes 5 Servings

- 250g (1 serving) onion
- 10g (~2 tsp) minced garlic
- 1 can (398 ml/14 oz) black beans
- 1 can (398 ml/14 oz) red kidney beans
- 1 can (796 ml/28 oz) crushed tomatoes
- (1 package) chili seasoning
- 23g (~1½ tbsp) chipotle purée
- 1 tbsp (15 g) rice vinegar
- 180g (¾ cup) water
- 225g (½ serving) mushrooms (50 cal)
- 175g (~½ serving) bell peppers (any color)
- 36g (½ cup) textured vegetable protein (TVP)
- Cooking spray

Optional:

- Fat-free sour cream (to taste)
- Salsa (to taste)
- Chopped cilantro (to taste)

Note: If missing chipotle chili purée or rice vinegar, it's still ok, you can sub an extra ½ package of chili seasoning.

Directions

1. Lightly spray a medium-sized pot with cooking spray and heat over medium heat. Add the onion, TVP, garlic, mushrooms, and bell peppers to the pot. Cook until everything becomes tender.
2. Strain and rinse the beans well.
3. Add the beans, crushed tomatoes, chili seasoning and ½ cup of water into the pot. Bring them to a boil, then reduce the heat and simmer for ~10 minutes, stirring occasionally, to blend flavors.
4. Stir in the chipotle purée, rice vinegar and add salt/pepper to taste.
5. Let simmer for ~15-20 minutes (If you have time, you can simmer longer than 20 minutes as it can help increase flavor). Serve in a bowl with your choice of optional toppings and enjoy!

Note:

- *Vegan cheese is a great optional topping for this dish.*
- *If you aren't vegan, you can add 38g of fat-free shredded cheese/fat-free cheese slices, parmesan, or feta if desired (calories not calculated in the macros).*

Directions

1. Preheat the oven to 375°F (190°C).
2. Cut the tops off the peppers and clean out the core leaving you with a hollow pepper (resembling a bowl). Cut the remaining pieces of the tops of the peppers into small pieces.
3. Dice the yellow onions into small cubes and mince the garlic (see cooking for morons).
4. In a pan or microwave, heat the veggie ground meat and place in a bowl.
5. Sauté onion and garlic for 5 minutes then add all additional vegetables to the pan. Once the vegetables are soft add the veggie ground meat, tomato sauce, TVP, and seasonings of choice.
6. Portion the mixture into each pepper. Place into a dish that will keep the peppers standing up right (a loaf pan works best).
7. Bake for 25 minutes, take out of the oven, and let stand for a few minutes to cool before eating (it's hot, don't burn the roof of your mouth).

You've probably had stuffed peppers, maybe even stuffed mushrooms. But, have you ever had stuffed tomatoes? Now is your chance! This dish has a delicious vegetarian combination of flavours that work perfectly together, all while being united by a flavorful baked tomato.

Ingredients

Makes 6 Tomatoes

- 1500g (~6) large tomatoes
- 340g veggie ground meat
- 48g (~ $\frac{2}{3}$ cup) textured vegetable protein (TVP)
- 10g chopped parsley
- Vegan cheese of choice (up to 180 cals)
- Vegan parmesan (to taste up to 40 cals)
- Pepper (to taste)
- Salt (to taste)

Directions

1. Preheat the oven to 350°F (~175°C).
2. Grind your TVP into a semi fine powder (use a coffee/spice grinder).
3. Cut a thin slice off the top of the tomatoes.
4. Gently scoop the pulp from the tomatoes and place it in a bowl. Place the tomato shells upside down on a paper towel to allow any excess liquid to drain.
5. Mix the veggie ground meat, tomato pulp, parmesan cheese, cheddar cheese, salt, and pepper until evenly mixed (~20-30 seconds).
6. Fill the tomatoes with the stuffing mixture and top with parsley.
7. Place the tomatoes in a baking dish and cover with aluminum foil.
8. Bake until tomatoes are tender and stuffing is hot (~20 minutes).

Prep tip:

- To make a higher protein and more filling meal, as a side, add 100 calories of any high protein vegetable of choice. I like asparagus, mushrooms or bok choy (not included in macros).
- You can use ½ sweet potatoes and ½ regular potatoes if desired.

Directions

1. Preheat the oven to 350°F (~175°C).
2. Peel the sweet potatoes, cut them in half and boil until soft.
3. Strain the water and mash thoroughly. With a blender or a hand masher.
4. In a large pot, add vegetable broth, the crushed pineapple, and 24g of the TVP. Add salt and pepper to your desired taste.
5. Add the mashed sweet potato to the broth mixture and mash again until smooth.
6. Transfer into an oven safe dish and top with the remaining TVP.
7. Place in the oven and bake for 30 minutes.
8. Remove from the oven and cut into thirds. Serve on a plate with your choice of sides and enjoy!

This recipe is so simple and delicious. Make it once and it will have a permanent place in your weekly routine. Make them on a BBQ or in the oven for a quick and tasty meal.

Ingredients

Makes 6 Servings including Buns

- 6 regular ass hamburger buns
- 540 ml can (~360g drained) black beans
- 20g fresh parsley
- 60g bell peppers (red, orange and/or yellow)
- 30g red onion
- 70g yellow onion
- 87g (¾ cup) vegan ground beef
- 60g (¼ cup) tomato sauce
- 6g (2 tsp) guar gum
- 7g (~2 tsp) liquid smoke
- 2.5g (~½ tsp) salt
- 1.5g (¾ tsp) black pepper
- 1.5g (~½ tsp) garlic powder
- 120g lettuce
- 150g tomatoes
- Condiments of choice (10 cals per burger)
- Optional: vegan cheese

Directions

1. Preheat the oven to 375°F (190°C), and prepare a baking sheet with parchment paper.
2. Drain and rinse the canned black beans and chop the parsley, onion and peppers.
3. In a food processor, add all of your ingredients except for the lettuce, tomato, condiments and vegan cheese and blend for 1 minute. Scrape down the sides and blend it again for 30-60 seconds.
4. Once the mixture is fully combined, scoop 1/6 of the mixture and place it gently on the baking sheet. You can shape the patty using your fingers. Continue this process until you have 6 patties on your baking sheet.
5. Bake the patties for 25 minutes. Let them cool for a few minutes. Add to a bun/lettuce bun if desired, and top with lettuce, tomato, condiments, and vegan cheese (optional).

Note:

- You can use 6g of agar agar rather than guar gum if desired.
- I use Gardein vegan ground beef (if using a different vegan ground beef adjust calories accordingly).
- The Gregamame Dip ([see page 87](#)) and/or Vegan Cheese Sauce ([see page 88](#)) would be a great addition to the burger.

Shepherd's pie comes from England and is traditionally made with lamb. In North America we normally serve our shepherd's pie with beef (some call this cottage pie). I like to make my shepherd's pie with veggie ground.... It still tastes amazing and both myself and Ally enjoy this meatless variation as much as the regular version.

Ingredients

Makes 4 Servings

- 390g veggie ground meat
- 250g (~1 cup) tomato sauce
- 200g (¾ cup) egg whites
- 125g (½ cup) vegetable broth
- 750g potatoes

Directions

1. Preheat the oven to 350°F (~175°C).
2. Peel and boil the potatoes, and cut, clean and boil the cauliflower. Next, place both into a blender and set aside (do not blend yet!).
3. Cut the onions, mince the garlic, and add them to a pan.
4. Heat the pan over medium heat and sauté until lightly browned. Add the frozen vegetables (carrots, peas and corn) to the pan and heat for 5-7 minutes.
5. Lower the heat to medium-low and add the veggie ground meat to the pan, lightly folding the meat and vegetables together.
6. Add the vegetable broth, tomato sauce, ½ of the egg whites (100g) and seasonings to taste. Let sit on low heat for 5 minutes.
7. Spray a casserole dish with cooking spray and spread the veggie meat mixture from the pan evenly into the dish.
8. Place in the oven for 10-15 minutes (this will allow the mixture to form on the bottom of the casserole dish).
9. Remove from the oven, spread (with a spoon or basting brush) the bbq sauce over the veggie meat mixture, and let stand.
10. Blend the potatoes, cauliflower, remaining half of the egg whites (100g), add salt and pepper to taste until smooth.
11. Spread the potato mixture evenly over the veggie meat layer and place back in the oven for 30 minutes, or until the top of the potatoes are lightly browned.
12. Remove from the oven and let stand for 10 minutes before serving.

A can of black beans is one of those foods that always seems to be lurking in the back of your pantry. If you need a new and improved way to use it up, try this black bean protein burger.

Ingredients

Makes 5 Servings (Including Buns)

- 540 ml can (~360g drained) black beans
- 60g bell peppers (red, orange and/or yellow)
- 60g red onion
- 75g mushrooms
- 120g (½ cup) egg whites
- 5 regular ass hamburger buns
- Seasonings of choice (to taste)
- 1.7g (~¼ tsp) salt
- 1.5g (¾ tsp) black pepper
- 1.5g (~½ tsp) garlic powder
- 2.5g (~2 ½ tsp) parmesan and herb seasoning mix

Toppings

- 120g lettuce/spinach
- 150g tomato
- Veggies of choice
- No sugar-added ketchup (to taste)
- Mustard (to taste)

Directions

1. Preheat oven to 350°F (~175°C). Drain and rinse the canned black beans, and set them aside in a microwave safe bowl.
2. Microwave the beans for 45-60 seconds and place in a blender or food processor. Add the egg whites, peppers, mushrooms, and onions. Blend on high until the beans are broken and mixed thoroughly (~20 sec).
3. Place parchment paper on a cookie sheet. Using a ½ cup measuring utensil, scoop out a serving of the mixture, form it into a patty and place on the parchment paper. And repeat 4 times.
4. Bake for 30-35 minutes, until the patties hold shape.
5. Let cool for a few minutes before building your bean burger on the bun.

Note:

- You can use any vegetables you wish.
- To lower calories, feel free to omit the buns and eat as a lettuce bun burger.
- Serve with a high protein side, or have a parfait for dessert to get all the protein you need.

Note:

- You can BBQ these patties. If you do, a grilling sheet works best.
- You can also eat this as a burger. (Make sure you calculate calories of the bun).

Directions

1. Preheat the oven to 350°F (~175°C).
2. Spray an oven safe dish with cooking spray.
3. Place the portobello mushrooms in the dish right side up. Gently wiggle and remove the stems with your fingers. This makes pockets that will help hold the mixture.
4. In a separate bowl, mix together the egg whites, soy sauce, balsamic vinegar, garlic, vegetable soup mix, pepper, and oregano.
5. Completely cover the tops of the mushrooms with TVP.
6. Slowly pour the mixture over each of the mushrooms and allow the liquid to soak into them. Keep as much as possible on top of the mushrooms without spilling into the pan.
7. Bake for ~15 minutes (If using fat-free feta, add to the mushrooms before cooking. If using fat-free cheese slices, cook for ~10 minutes, remove the mushrooms from the oven, add the fat-free cheese and cook for another ~5 minutes).
8. Remove from the oven and serve as a side dish, or add a bun and turn it into a veggie burger. Enjoy!

Prep tip: Risotto thickens over time so it is even better the next day!

For cheesier risotto add an additional 40g of light parmesan. It will only add 150 calories to the recipe.

Tasty tip: My go-to for this dish is the Prosciutto- Wrapped Stuffed Chicken & Veggies (see page 132).

Directions

1. Wash the arborio rice in a strainer under cold tap water, making sure you have removed all dust.
2. Preheat a large saucepan (at least 12 inches) over medium heat. Spray with cooking spray.
3. Add the garlic and onions and cook until the onions are soft and translucent, for approximately 3 minutes.
4. Place all of the mushrooms in the pan, add salt, and stir. Cook them until some of the water has been released, and they shrink to about half of the size.
5. Add the rice and the cream of mushroom soup and stir well.
6. Slowly add all of the broth into the pan and stir until everything is combined.
7. Once the broth is boiling, reduce the heat to low and cover with a lid. Let it cook for 20 minutes.
8. Turn off the stove. Remove the lid, add the 3P's (pepper, peas, and parmesan) and stir well. Cover again and let it sit for 15-30 more minutes.
9. Transfer to a plate, and enjoy! Or you can let it cool, transfer it to an airtight container, and store it in the fridge.

Prep tip: Risotto thickens over time so it is even better the next day!

For cheesier risotto add an additional 40g of light parmesan. It will only add 150 calories to the recipe

Tasty tip: My go to for this dish are The Swedish Meatballs (see page 133).

Directions

1. Wash the arborio rice in a strainer under cold tap water, making sure you have removed all dust.
2. Preheat a large saucepan (at least 12 inches) over medium heat. Spray with cooking spray.
3. Add the garlic and onions and cook until the onions are soft and translucent, for approximately 3 minutes.
4. Place all of the mushrooms in the pan, add salt, and stir. Cook them until some of the water has been released, and they shrink to about half of the size.
5. Add the rice and the butternut squash purée and stir well.
6. Slowly add all of the broth into the pan and stir until everything is combined.
7. Once the broth is boiling, reduce the heat to low and cover with a lid. Let it cook for 20 minutes.
8. Turn off the stove. Remove the lid, add the PAP (pepper, asparagus, and parmesan) and stir well. Cover again and let it sit for 15-30 more minutes.
9. Transfer to a plate, and enjoy! Or you can let it cool, transfer it to an airtight container, and store it in the fridge.

Tasty tip:

I also like making this risotto with mushrooms. Feel free to experiment with some of your favorite vegetables, and don't forget to add the extra calories to the macros.

My go to for this risotto is the New Age Chicken Nuggets, (see page 127).

Directions

1. Wash the arborio rice in a strainer under cold tap water, making sure you have removed all dust.
2. Preheat a large saucepan (at least 12 inches) over medium heat. Spray with cooking spray.

Perfect for that time of day after work and before dinner, for late night snacks, or to accompany the main course. I eat this eggy rice all the time. It's quick, tasty, and anabolic.

Ingredients

Makes 4 Servings

- 180g (~1C) basmati rice
- 22.8g (2 cubes) chicken bouillon
- 1000g (~4C) fat free egg creations, cheese and chives
- Pepper to taste

Prep tip:

If you are dieting add more egg whites to make this recipe extra anabolic or if you are in a calorie surplus add more rice. Just remember to adjust the extra calories in the macros

Tasty tip:

You can add all types of veggie combos to this. I'll let you choose from your favorite ones. You won't be disappointed!

Directions

1. Wash the rice in a colander under cold tap water.
2. Place the rice, bouillon, and water in a pot and bring it to a boil, no lid.
3. Reduce the heat and simmer for 15 minutes.
4. Remove from the heat and let it sit, covered for 10 minutes then fluff with a fork.
5. Preheat a frying pan and lightly spray it with cooking oil.
6. Pour the egg whites in and let them cook until the eggs are firm, not runny. Remove from the heat.
7. With a spatula, break up the egg whites, and mix in with the cooked rice. Season with pepper.
8. Serve with your favorite vegetables, protein or eat it by itself.

Who doesn't love blueberries? And protein? And cookies?! Need I say more? Feast your taste buds on these delicious blueberry protein cookies. With almost 20 grams of protein for 2 cookies, how could you go wrong with this tasty delight?

Ingredients

Makes 12 Cookies

- 180g (1½ cups) oat flour
- 102g (3 scoops) **HTLT Vanilla Whey+Casein Protein Powder** (or whey+casein of choice)
- 250g (1 cup) 0% fat Greek yogurt
- 135g (¾ serving) fresh blueberries
- 125 ml (½ cup) low-calorie maple syrup
- 5g (1 tsp) vanilla extract
- 4g (1 tsp) baking powder
- 5g (1 tsp) baking soda
- 1 tsp salt

Directions

1. Preheat the oven to 350°F (~175°C) and spray a baking sheet with cooking spray.
2. In a bowl, mix all the dry ingredients together well. In a separate bowl, mix all the wet ingredients together well. Add the wet ingredients to the dry ingredients and combine until fully mixed throughout. Fold in the blueberries and mix gently.
3. Place small spoonfuls of the batter on the baking sheet 1-2 inches (3-5cm) apart. Place in the oven and bake for 8-10 minutes or until the cookies begin to turn golden brown. Remove from the oven and allow the cookies to cool down for 10 minutes before serving.

Ingredients

Makes 10 Brownies

• Whisk wet

- 1 large egg
- 48g (½ cup) powdered peanut butter (PB2) mix with 90g (¾ cup) water
- 6 packets (¼ cup) sweetener
- 30g (2 tbsp) unsweetened applesauce

• Mix dry

- 50g (~1½ scoops) **HTLT Chocolate Whey+Casein Protein Powder** (or whey+casein of choice)
- 16g (~2 tbsp) self-rising flour
- 20g (¼ cup) cocoa powder
- 5g (1 tsp) baking soda

• Mix-ins

- 30g (2 tbsp) mini sugar-free chocolate chips

Directions

1. Preheat the oven to 350°F (~175°C).
2. In a bowl, whisk together all the wet ingredients.
3. In another bowl, mix the dry ingredients together.
4. Gradually add the dry ingredients into the wet and mix thoroughly until smooth. Then add in the chocolate chips.
5. Using a spoon, drop 10 cookies onto parchment/splat mat (the cookies will spread a little).
6. Bake for 6-8 minutes. Depending on your protein, the cooking time may vary. It's best to undercook so they are fudgy.
7. Let them cool slightly and put on a cooling rack to prevent cookies from continuing to bake or dry out.

Prep tip: To help transfer the gooey mixture, I recommend that you spray your fingers with cooking spray to help to evenly distribute across the tray.

Note: I stock up on this SKOR bar during the summer. It's a great snack for warm days.

FibrO Prep

1. Microwave 160g (⅔ cup) of water for 30 seconds.
2. Add 250g (~2cups) FibrO IMO Powder.
3. Stir until dissolved.
4. Weigh out 400g.

Directions

1. Follow the "FibrO Prep" at the bottom left of the page.
2. If your FibrO syrup is cold, microwave it in a bowl until bubbles start to form (about 30 seconds on high).
3. Remove bowl from microwave and add remaining ingredients. Combine all the ingredients together with a mixer or spoon until you achieve a sticky, doughy consistency.
4. Spread mixture onto a silicone tray and transfer to a freezer.
5. After about 1 hour in the freezer, remove the tray and let sit at room temperature for 5 minutes. Slice the batch into portion sizes of choice. Wrap individual pieces in parchment paper and return them to the freezer.
6. SKOR protein bars should remain in the freezer until they are ready to be eaten.

Prep tip: It can take some work to get the popcorn evenly coated. If you don't mind getting a little messy, use your hands.

FibrO Prep

1. Microwave 40g of water for 30s.
2. Add 63g FibrO IMO Powder.
3. Stir until dissolved.
4. Weigh out 80g.

Directions

1. Pop popcorn in the microwave per directions. Once popped, place the popped popcorn in a larger bowl than last time. Remove all unpopped kernels (this makes a HUGE difference!).
2. Follow the "FibrO Prep" at the bottom left of the page.
3. If your FibrO syrup is cold, microwave it in a bowl until bubbles start to form (about 30 seconds on high).
4. Add chocolate syrup, protein powder and sweetener to the FibrO syrup and stir with a spoon.
5. Pour the syrup/protein powder mixture on top of the popped SmartPop, and carefully mix with a spatula until well combined.
6. Place and store the chocolate popcorn in the freezer. Eat half now and save the rest for later if you can!! (Although you might not be able to... this is crazy good).

Apple Poop

Vegan

Prep Time
15 MinutesReady In
25-50 MinutesDifficulty
Easy

Apple Poop (formally “Apple Goop”) is a Greg Doucette classic! This is a perfect recipe for anyone whose favorite season of the year is Fall—the season of apple picking, apple pie, apple cider, apple strudel, everything with apples! Apple Goop will satisfy your year-round Fall sweet tooth cravings while helping you to stick to your diet plan. It is also friendly to vegans, vegetarians, and people following a gluten-free diet.

Ingredients

Makes 1 Serving

- 45g (½ cup) rolled oats
- 570g (3 servings) apples
- 6 packets (~1 tbsp) sweetener
- 10g (~1¼ tbsp) guar gum
- 2.5g (~1 tsp) cinnamon
- 1 L water

Directions

1. Chop apples into medium cubes.
2. Add apples, oats, sweetener, and cinnamon to a large microwave-safe container and toss with a fork.
3. In a blender add water and guar gum. Blend on high for 15-30 seconds. This will allow the guar gum to blend into a smooth goop-like consistency.
4. Add the blended water/guar gum mixture to the microwave-safe container, and stir all ingredients with a fork.
5. Place the container in the microwave and heat on high. Remove the bowl from the microwave, add water and stir as needed until the apples are soft. This may take anywhere from 10-40 minutes depending on how strong your microwave is and how soft you want your apples to be!

Prep tip: This can easily be prepared on the stove if desired.

Medium

Ingredients

Makes 1 Roll

Dough

- 30g (~¼ cup) self-rising flour
- 17g (~½ scoop) **HTLT Vanilla Whey+Casein Protein Powder** (or whey+casein of choice)
- 60g (~¼ cup) 0% fat Greek yogurt

Filling

- 30 ml (2 tbsp) low-calorie maple syrup
- 1.5g (½ tsp) cinnamon
- 2.5g (½ tsp) sweetener

Glaze

- 16g (~½ scoop) vanilla protein powder
- 45 ml (3 tbsp) sugar-free syrup (to taste)

Directions

1. Preheat the oven to 350°F (~175°C).
2. Add all dough ingredients to a large bowl. Whisk until mixture begins to form dough (it will be sticky). With your hands, roll the dough into a ball and let sit.
3. Place the dough on a floured surface and spread out into a long rectangle using wet fingers.
4. Spread the filling over the dough, then roll into a log. (May need a butter knife to help roll if sticking to the surface).
5. Lightly spray a microwave or oven safe small ceramic dish. Place the roll into the ceramic dish and drizzle any leftover filling on top.
6. Bake for approximately 15-20 minutes, checking for doneness after 15 minutes.
7. Remove from the oven and let cool on a cooling rack. Combine the glaze ingredients in a bowl and stir until smooth. Coat the cinnamon roll with the glaze and top with a sprinkle of cinnamon. Enjoy!

Directions

1. Mix all ingredients for the Chocolate Cake Chunks in a microwave-safe bowl with a whisk until evenly mixed.
2. Microwave the batter for 60 seconds until it is cooked fully through and resembles a cake (note that microwave times may vary as they have different power - keep adding 10 seconds at a time until fully cooked through).
3. Remove the cake from the bowl and cut into bite-sized chunks.
4. Next, place all of the ingredients for the shake/ice cream into a blender. Blend all together until the batter is very thick and smooth. You may need to scrape down the sides to ensure it blends perfectly.
5. Remove ice cream from the blender and place into a bowl. Add the lava cake chunk toppings as well as your low-calorie/sugar-free chocolate sauce to the top.
6. Eat immediately and try to not get brain freeze. Enjoy!

Medium Serving

- 50g (1½ scoop) **HTLT Whey+Casein Protein Powder** (flavor of choice)
- 125g (½ cup) 0% fat Greek yogurt
- 90 ml (⅓ cup) unsweetened almond milk
- 15g fat-free chocolate Jell-O pudding (50 calories)
- 15g (~2.5 tbsp) chocolate peanut butter powder (PB2)
- 7.5g (1½ tbsp) cocoa powder
- ~2g (¾ tsp) guar/xanthan gum
- 2 packets (4 tsp) sweetener
- Ice

Large Serving

- 68g (2 scoops) **HTLT Whey+Casein Protein Powder** (flavor of choice)
- 175g (¾ cup) 0% fat Greek yogurt
- 120 ml (½ cup) unsweetened almond milk

Directions

1. Add all ingredients to a blender. Blend for 1 minute on medium-high speed until there is a smooth consistency. Note that if you use casein protein, the protein ice cream pudding will be thicker.
2. Scrape sides of the blender and ensure all ingredients are blended. You may have to pulse the blender a few times depending on the consistency you want to achieve. You can always add more ice or water to get the consistency you desire.
3. Pour the mixture out of the blender and into a bowl to consume immediately. You may top with powdered peanut butter, fresh blueberries, Walden Farms low-calorie syrup, or popcorn; anything that makes it more interesting and delicious for you. IT DOESN'T MATTER! There are NO rules in this kitchen! Just be sure that you account for your toppings when tracking your calories.

Directions

1. Preheat the oven to 350°F (~175°C).
2. Prepare the batter. If you are pressed for time, simply place all the ingredients into the blender and blend until there is a smooth, creamy consistency.
3. If you are NOT pressed for time, prepare the batter this way: First, blend the chickpeas in the blender until there is a smooth consistency. Then, in a separate bowl, mix the dry ingredients. In another bowl, mix the wet ingredients including the blended chickpeas. Then, add the dry ingredients to the bowl of wet ingredients, and mix well.
4. Spray a baking dish with cooking spray. Pour the batter in the greased pan and place in the oven. Bake the cake for 30-40 minutes or until fully cooked (it may be more or less depending on your oven and the size of your pan - best to keep an eye on it). Use a toothpick and insert it in the middle of the cake. If it comes out clean then it is done.
5. Remove the cake from the oven and let it cool for 20-30 minutes before cutting and serving.

CG Vanilla Ice Cream

Vegetarian

Prep Time
5 MinutesReady In
~9 HoursDifficulty
Easy

All the creaminess from Ben & Jerry's but better. This is a re-freezable ice cream.

Ingredients

Makes 1 Serving

- 115g (~½ cup) cottage cheese
- 375 (~1 ½ cup) Greek yogurt
- 8g (¼ scoop) **HTLT Vanilla Ice Cream Protein Powder** or any protein powder you desire.
- 55g (~½ cup) fat-free Cool Whip
- 125g (½- cup) fairlife protein milk
- 10g (½ package) vanilla Jell-O powder
- 5 cm scraped from the interior of a vanilla bean
- ¾ tsp vanilla extract
- ½ tsp (~1.5g) guar gum

Nutrition	Entire Batch	1 Serving
Calories	565	141
Fat (g)	4	1
Carbs (g)	50	12
Fiber (g)	0	0
Protein (g)	66	16.5

Note:

- Do not over freeze the ice cream, not more than 9 hours.
- If your freezer has a soft-freeze area I recommend storing the ice cream there.
- Re-freeze for longer storage but not longer than 2 weeks.
- If you do not have vanilla bean on hand, use 1.5 tsp of vanilla extract.

Tasty tip: This is the foundation for making ice cream. Feel free to explore and twist other textures and flavors. You can add one serving (100 calories) of fruit of choice.

Directions

1. Add all the ingredients into the power blender and blend until all ingredients are fully incorporated.
2. Transfer the mixture into an airtight container and close with the lid.
3. Place the ice cream in the freezer for 6 hours.
4. Before consuming, thaw the ice cream in the refrigerator for 4-5 hours. Scrape gently with a spoon, mold the ice cream into a bowl and enjoy!

Prep tip: You can make this recipe vegan by using HTLT Vegan Protein Powder (keep in mind it's thicker than normal vegan protein powders)!

Tasty tip: I will often eat popcorn in a bowl while consuming a protein shake to make it a complete meal. This is one of my most common evening meals, especially when dieting!

Directions

1. Add all ingredients to a blender. Blend for 1 minute on medium high speed until there is a smooth consistency. Note that if you use casein protein, the shake will be thicker.
2. Scrape sides of the blender and ensure all ingredients are blended. You may have to pulse the blender a few times depending on the consistency you want to achieve. You can always add more ice or almond milk to get the consistency you desire.
3. Pour the mixture out of the blender and into a mug to consume immediately. You may drizzle with powdered peanut butter, fresh blueberries, or Walden Farms low-calorie syrup.

Netflix & Chill'd Protein Ice Cream

Original recipe by "The Iron Musket"

Vegetarian

Prep Time
5 Minutes

Ready In
10 Minutes

Difficulty
Medium

Ingredients

Makes Entire Batch

Ice Cream

- 50g (1½ scoops) peanut butter protein powder (225 calories, 33g protein)
- 45g powdered peanut butter (PB2)
- 7g Snyder's Itty Bitty Mini pretzels
- 3g (1 tsp) guar gum
- 1 packet sweetener (2 tsp) OR ~½ tbsp Stevia/Erythritol
- 405g ice
- 115g water
- ½ tsp salt

Chocolate Fudge

- 17g (½ scoop) chocolate protein powder (75 calories)
- 12g Walden Farms sugar-free syrup
- 5g (1 tbsp) cocoa powder
- 1g (¼ tsp) guar gum
- ½ packet sweetener OR 1 tsp Stevia/Erythritol

Nutrition	Entire Batch	1 Serving
Calories	480	240
Fat (g)	10	5
Carbs (g)	34	17
Fiber (g)	8	3
Protein (g)	60	30

Directions

1. To make the chocolate fudge, mix the sugar-free syrup, chocolate protein powder, stevia, cocoa powder, and guar gum in a bowl. When all ingredients are thoroughly mixed, place the bowl in the freezer for 1 hour.
2. Next, make the peanut butter ice cream. Place the pretzels in a plastic bag, crush them thoroughly, and set aside. Then, in a bowl, mix the crushed pretzels with the remaining dry ingredients (salt, stevia, guar gum, powdered peanut butter, and peanut butter protein powder).
3. Add the water, ice and peanut butter ice cream mixture to a blender. Blend on high for 1 minute. After 1 minute, scrape down the sides/edges if needed. Blend again for 1 minute and 30 seconds on high. After blending, the consistency should be a thick cream.
4. Scoop out the peanut butter ice cream mixture into a container of your choice and place it inside the freezer for 10 minutes. After 10 minutes, take your peanut butter ice cream mixture out of the freezer along with the chocolate fudge.
5. Cut your chocolate fudge into small pieces and dip them into the crushed pretzels for the extra crunch. Garnish the chocolate fudge chunks on top of your peanut butter ice cream. Optionally, you may add whole pretzels as desired and Walden Farms calorie-free syrup for extra taste. Enjoy!

2.5 HoursDifficulty
Medium

Chocolate Strawberry Proteinsicles are a delicious frozen, fruity, and chocolatey treat. They are EXTREMELY anabolic due to the high protein content relative to everything else (62% of the calories come from PROTEIN)! Coach Greg's entire freezer is stuffed with these because they are delicious, anabolic, and amazing!

Ingredients

Makes 1 Batch (Approx. 4 Medium Servings)

- 240 ml (1 cup) unsweetened almond milk
- 119g (3½ scoops) **HTLT Chocolate PB Whey+Casein Protein Powder** (or whey+casein of choice)
- 300g frozen strawberries (1 serving)
- 3g (1 tsp) guar/xanthan gum
- 1 package fat-free Jell-O chocolate pudding (140 calories)
- 125g (½ cup) 0% fat Greek yogurt
- 5 packets (~3 tbsp) sweetener (to taste)

Directions

1. Add all ingredients into the blender and blend for 1 minute.
2. With a spatula, scrape the edges of the blender pushing the mixture towards the bottom.
3. Blend again for 1 more minute or until you have reached a smooth and fluffy consistency. Repeat the scraping process and blend again if necessary.
4. Using a spatula, remove the mixture from the blender and transfer into silicone trays. Place the trays in the freezer.
5. Let them sit in the freezer for at least 3 hours.
6. Place the bottom of the ice tray under hot water from the tap for about 10 seconds to make them easy to remove. Pop them out and eat frozen or place into an airtight container, put them into the freezer and eat later.

Vegan donuts are easy to find. BUT, how many of those are low in calories and high in protein?
Almost ZEEEEEEEEEEEEERRRO. Until now!

Ingredients

Makes 4 Donuts

Donut Base

- 4 regular ass hamburger buns
- 120g (½ cup) unsweetened vanilla cashew milk
- 16g (~½ scoop) **HTLT Vegan Protein Powder** (flavor of choice / or brand of choice)

Filling

- 33g (1 scoop) **HTLT Vegan Protein Powder** (flavor of choice / or brand of choice)
- 45g (~3 tbsp) sugar-free strawberry jam
- 45g (~3 tbsp) low-calorie syrup

Topping

- 9g (1 tbsp) Swerve Icing Sugar

Nutrition	Entire Batch	1 Donut
Calories	800	200
Fat (g)	22	6
Carbs (g)	101	25
Fiber (g)	4	1
Protein (g)	44	11

Note:

- You can use any flavor of no sugar added jam.
- If you like a creamier donut center, add 1-2 tbsp of low-calorie maple syrup or nut milk of choice.
- To make extra anabolic, use a plant-based protein nut milk (I use unsweetened vanilla Silk 8g plant protein almond & cashew).

Directions

1. Start by placing parchment paper onto a baking sheet and spray with cooking spray, then set aside. Preheat the oven to 350°F (~175°C).
2. In a bowl, add the filling ingredients and mix until smooth, then set aside. You have now completed the filling for your vonuts.
3. Combine the cashew milk and 16g of the protein powder in a separate bowl, and mix until smooth.
4. Cut all 4 hamburger buns in half if not pre-cut.
5. Quickly dip (~½ second) each half of the hamburger bun on both sides in the mixture, and place on a plate with the inside part of the bun facing up.
6. Press in the center of the 4 top buns slightly with your fingers to make a bowl-like indentation in the center. (This will hold the filling).
7. Add the filling to the 4 indentations you just made on the top half of the buns.
8. Place the bottom half of the buns on top and seal the buns by slightly pinching around the edges to seal the pieces together, forming the donuts.
9. Flip the donuts and place them on the sprayed baking sheet with parchment paper to prevent sticking (It should look like a hamburger at this point).
10. Bake at 350°F (~175°C) for 10 minutes or until golden brown.
11. Place 9g (1 tbsp) of Swerve Icing Sugar onto a plate. Spray the tops of donuts quickly with cooking spray, and coat the tops and/or bottom of the donuts by gently placing them top down into the Swerve Icing Sugar and gently swirling them around before flipping and swirling again (or simply sprinkle some Swerve on top. I personally like a lot of Swerve).
12. Eat immediately or place into a sealed container to enjoy later (if you don't know how to eat a donut, visit Will Tennyson's YouTube channel for more details).

Directions

1. Start by placing parchment paper onto a baking sheet, set aside. Preheat the oven to 350°F (~175°C).
2. In a bowl add the protein powder, 60g (¼ cup) of egg whites, Greek yogurt, Cool Whip, instant pudding mix, syrup, and vanilla extract. Mix with a spoon until smooth and set aside. You have now completed the filling for the donuts.
3. Place 100g (~½ cup) of egg whites in a flat surface bowl.
4. Cut all 6 hamburger buns in half (if not pre-cut).
5. Quickly dip (~1 second) each half of the hamburger bun on both sides in egg whites, and place on a plate with the inside part of the bun facing up.
6. Press in the center of the 6 top buns slightly with your fingers to make a bowl-like indentation in the center. (This will hold the filling).
7. Add the filling to the 6 indentations you just made in the top half of the buns.
8. Place the bottom half of the buns on top and seal the buns with your fingers by slightly pinching around the edges to seal the two halves together forming the donuts.
9. Flip the donuts and place them on the baking sheet with parchment paper to prevent sticking (It should look like a hamburger at this point).
10. Bake at 350°F (~175°C) for about 10 minutes or until golden brown (do not overcook). Remove from the oven and let cool.
11. Place 9g (~1 tbsp) of Swerve Icing Sugar onto a plate. Spray the tops of donuts quickly with cooking spray, and coat the tops and/or bottom of the donuts by gently placing them top down into the Swerve Icing Sugar and gently swirling them around before flipping and swirling again (or simply sprinkle some Swerve on top).
12. Eat immediately or place into a sealed container to enjoy later.

Pretty Pink Parfait

Vegetarian

Prep Time
15 MinutesReady In
~3 HoursDifficulty

Creamy, thick, fresh, yummy and pretty. A quick and easy grab and go breakfast, snack or dessert. One of the MUST haves in my fridge.

Ingredients

Makes 4 Parfaits

- 96-102g (3 scoops) **HTLT Vanilla Whey+Casein Protein Powder** (or whey+casein of choice)
- 465g (~2 cups) 0% fat-free Greek yogurt
- 200g frozen strawberries
- 220g fresh mango
- 200g fresh kiwi
- 140g fresh blueberries
- 3 packets sweetener
- 5g (1 tsp) vanilla extract
- 2g guar gum (use 3 g if using whey protein)
- 20g (3 tbsp) ground flax seed
- ~40g (4) cherries (topping)

Note:

- Scrape the sides of the blender if the batter is not mixing properly.
- Keep refrigerated until you are ready to eat!
- To save time, just stir the batter/fruit in a bowl and eat. At this point it will be a "pink parfait", and not so pretty. But it will taste the same!
- Experiment with your favorite protein flavors.

Directions

1. Slice the mango and kiwi and set aside.
2. Place the yogurt, protein powder, frozen strawberries, flax seeds, sweetener, guar gum, and vanilla extract into a blender, and blend for 60-90 seconds. At this point you will have a smooth batter consistency.
3. Parfait Assembly:
 - Using a tall glass start by placing one layer of fruit on the bottom.
 - Add 3-4 tbsp of the batter and repeat this process (fruit, batter, fruit...) until you have filled the glass.
 - Top the parfait with a cherry.
4. Repeat step 3 for the remaining 3 parfaits. Place in the fridge for at least 3 hours before serving.

Watermelon proteinsicles are a must have summer treat. Quick, easy, refreshing, super high protein and packed with flavor.

Ingredients

Makes 1 Serving

- 60g ice
- 175g (¾ cup) 0% fat-free Greek yogurt
- 110g unsweetened cashew milk
- 330g (1 serving) frozen watermelon
- 68g (2 scoops) **HTLT Vanilla Whey+Casein Protein Powder** (or whey+casein of choice)
- 7.5g (~½ tbsp) lemon juice
- 6g (~½ tbsp) lemon zest
- 5g (~½ tbsp) Swerve Icing Sugar
- 1.5g (~1/2 tsp) guar/xanthan gum

Directions

1. Add all ingredients into the blender and blend for 1 minute.
2. With a spatula, scrape the edges of the blender pushing the mixture towards the bottom.
3. Blend again for 1 more minute or until you have reached a smooth and fluffy consistency. Repeat the scraping process and blend again if necessary.
4. Using a spatula, remove the mixture from the blender and transfer into silicone trays. Place the trays in the freezer.
5. Let them sit in the freezer for at least 3 hours.
6. Place the bottom of the ice tray under hot water from the tap for about 10 seconds to make them easy to remove. Pop them out and eat frozen or place into an airtight container, put them into the freezer and eat later.

~3 HoursDifficulty
Easy

Looking for a light, smooth and creamy cold snack that's full of protein? Give my new frozen peach mousse recipe a try. They make a great dessert, or even a late night snack when you want to squeeze in a little extra protein!

Ingredients

Makes 1 Batch (18 Servings)

- 460g frozen peaches
- 80g (~½ cup) fat-free ricotta cheese
- 200g (¾ cup) 0% fat-free Greek yogurt
- 100g fat-free cream cheese
- 24g (3 tbsp) **FibrO IMO Powder**
- 96g (3 scoops) **HTLT Vanilla Whey Protein Powder** (or whey of choice)
- 1.5g (½ tsp) guar gum

Directions

1. Add the ricotta, Greek yogurt, cream cheese, protein powder, FibrO and guar gum into a blender and blend for ~45-60 seconds. Remove the lid of the blender, and scrape the mixture down.
2. Add the peaches into the blender and blend for another ~30-60 seconds (or until the peaches are fully crushed).
3. Transfer the creamy mixture into 18 (or more) silicone muffin molds, then using your spatula, press the mixture down until the air has escaped from each mold.
4. Let the mouse sit in the freezer for at least 4 hours.
5. Pop them out of the molds and serve frozen (store in freezer).

15 MinutesDifficulty
Easy

If you're looking for a simple and delicious "whey" (pun intended) to make your desserts taste better while adding protein, you've found it! This cream cheese icing can be spread onto all kinds of treats without adding a lot of calories.

Ingredients

Makes 1 Batch (12 Servings)

- 70g (~½ cup) Swerve Icing Sugar
- 90g (~6 tbsp) fat-free cream cheese
- 120g (½ cup) fat-free high protein milk
- 5g (1 tsp) vanilla extract
- 50g (1½ scoops) **HTLT Vanilla Whey+Casein** Protein Powder (or whey+casein of choice)
- 1g (~½ tsp) guar gum

Directions

1. In a bowl, using a hand mixer, mix all ingredients until well blended.
2. Place in the fridge to cool for ~15 minutes before serving.

Note:

- You can easily order Swerve online, or find it in many grocery stores!
- If using a whey protein powder, use 1.5 g (~½ tsp) of guar gum.

Note:

- Put as much or as little as you want on your cupcakes, muffins or cake.
- Protein powders will vary according to the ratio of whey and casein.
- Regular whey protein may only need 60g of egg whites.
- 100% casein protein may only need 1.5g (½ tsp) guar gum OR 100g egg whites.

Directions

1. Add all ingredients to a bowl, and blend with a hand blender until smooth (can also use a regular blender).
2. If not thick enough, place in fridge for 30 minutes as it will thicken over time (other protein powders may not thicken as much as HTLT).
3. Add to any cupcake, muffin or cake. Simply delicious!

Harder Than Last Time

Everyone loves cheesecake! and you know me... I came up with a recipe we could all eat at the house with no regrets. This cheesecake is creamy, crunchy and you will thank me after making it.

Ingredients

Makes 1 Batch (8 Servings)

Cheesecake Crust

- 100g digestive biscuits
- 60g light margarine

Filling

- 250g (~1 cup) fat-free Greek yogurt
- 100g (~½ cup) fat-free cottage cheese
- 120g (~½ cup) low fat cream cheese
- 6g (~1 tbsp) lemon zest
- 2.5g (~½ tsp) lime juice
- 32g **HTLT Whey-Casein Luckier Marshmallow Protein Powder** (or whey-casein of choice)
- 1 tbsp **HTLT FibrO IMO Powder**

Jam

- 260g (2 cups) frozen strawberries
- 6g (~2 tbsp) Swerve icing sugar
- 20g (~4 tbsp) fresh lemon juice
- 1.5g (~½ tsp) guar gum

Directions

Crust

1. Add the digestive biscuits into the blender and blend them for 30 seconds.
2. Place the margarine in a microwave safe container and melt it for 10 seconds, check if is fully melted, and if not repeat the process.
3. Blend the biscuits one more time while adding the melted margarine.
4. Prepare a 9inch cheesecake springform with parchment paper.
5. Add the mixture into the mold, press it down with your fingers, bake for 10 minutes at 355°F, and set aside.

Filling

6. In a large bowl or the stand mixer, beat the Greek yogurt, cottage and cream cheese until the mixture is a smooth consistency.
7. Mix in the lemon zest and lime juice, marshmallow protein, and FibrO until the FibrO has fully dissolved.
8. Spread the mixture on top of the crust and refrigerate for 3 hours or until it has fully set.

Jam

9. Pour the frozen fruit into a saucepan, add 3 tbsp of lemon juice, and let cook for 2 minutes over medium heat.
10. Once the fruit is starting to defrost add the sugar and let cook until all the fruits has broken down.
11. In a separate container pour 1 tbsp of lemon juice and mix it with the guar gum until clumps have fully disappeared.
12. Transfer the guar gum mixture into the saucepan and mix well with the help of a whisk.
13. Reduce heat and simmer for 2 minutes. Let it cool down and top your cheesecake with it.
14. Transfer the cheesecake to the refrigerator for 2 more hours.
15. Portion it in 8 equal slices and serve.
